HANDS-ON CODING ROBOT FOR KIDS

Develop cognitive abilities, imagination, and coding skills through hands-on play

⚠ Your browser does not currently recognize any of the video formats available. [Click here to visit our frequently asked questions about HTML5 video.](#)

SEE IT IN ACTION!

Let kids learn to code just by playing. No need for a screen, a keyboard or literacy. Kids will program a robot, and create music and art. Matatalab helps young learners understand fundamental concepts to prepare them to grasp more abstract concepts of real programming at higher grade levels in the future.

MATATALAB LITE

Matatalab Lite is an adorable and easy-to-use coding robot ready to take young kids aged 3+ on an exciting coding adventure. Students will Develop problem solving skills, critical thinking, creativity and collaboration through hands-on coding game plays. Kids discover the fun of basic coding concepts such as sequencing, conditionals and debugging and will constantly be challenged with advanced tasks.

DSC# 140300 | MFG# 90001-3202 | SRP \$129.90 | COST \$90.93

MATATALAB PRO SET

Matatalab Pro Set is a hands-on coding robot for STEAM education without the need for screen and literacy. Students use their imagination to create infinite possibilities using coding blocks, by controlling a robot car through coding algorithms. They learn fundamental coding skills and develop necessary cognitive abilities through educational coding games from a young age.

DSC# 140302 | MFG# 90001-2266 | SRP \$285.90 | COST \$200.14
