GO BOX

Automate Enrollment & Configuration Processes

WHAT is the product?

Go-Box is a quick and easy solution to automate the enrollment and configuration processes on large quantities of Chromebooks. Simply power on and connect up to 16 new Chromebooks and Go-Box Chrome automatically does the rest in a flash. The Chromebook force wipe on existing units can be automated with only a few keystrokes.

WHERE does it stand out?

- Automate any Chromebook process you can do with an external keyboard and mouse.
- Automate Chromebook setup/enrollment
- Configures any wireless network automatically, including proxy pages.

WHO is it for?

- K-12 Teachers
- School Administrators
- IT Departments/Directors

WHY does it benefit education?

- Provides mass automation for Chromebook enrollment, configuration, and other processes.
- Eliminates manual entry of settings, account details, and Wi-Fi credentials
- Elimination of entry errors.
- Cost savings where commercial white glove enrollment services are replaced.

CONTACT ME FOR MORE INFORMATION

Centrally managed scripts run asynchronous across each of the 16 USB channels for even faster operation.

Automates force wipe processes on existing Chromebooks.

GO BOX

Allows you to watch your script run in real time to get it just right.

Easily customizable settings.

Up to 16 Chromebooks can be configured simultaneously.

Frequently Asked Questions

What does the Go-Box come with?

Each Go-Box device comes with a carrying bag, 16 USB cables, cable ties, and a power supply. Everything you need to mass enroll your Chromebooks.

How fast does the Go-Box enroll Chromebooks?

Speed factors are network dependent. Some customers enrolled24 Chromebooks in 2 minutes.

Does Go-Box work with macOS, tablets, or PC devices?

Go-Box is recognized by any device (Chromebook, PC, MAC, tablet, etc.) that accepts an external mouse or keyboard. Any sequence of keys or repeatable processes you can do by hand can be automated.

How many Chromebooks can the Go-Box enroll at once?

The Go-Box can automatically enroll 16 Chromebooks at a time, asynchronously.

How many Go-Box units do I need?

One Go-Box per 2,000 Chromebooks with normal IT resources or one Go-Box per 500 Chromebooks with thin IT staffing/resources. Alternatively, assign one Go-Box per IT technician.
