**Paper-like canvas**  
With natural surface friction and minimal reflection, it feels like you're drawing or writing on paper, not glass.

**Space to play**  
See imagination come to life in full color on a display that's nearly A4/letter size.

**Connect your way**  
You can link up to Mac or PC, and certain Android tablets or smartphones.

**Digital freedom**  
Sketch or paint directly on-screen, draw diagrams, annotate documents, enhance photos, and videos. Edit and update work and share creations with ease.

**Just like a standard pen**  
With no need for batteries, it's a pen that feels and looks just right in your hand. And it's so accurate, what you do is what you see.

**Bonus Pack included**  
Brilliant apps are waiting to be explored.
