New Year. New Products.

Meet the newest additions to the
Andrea Communications product line

NC-255VM USB On-Ear Stereo Headset & NC-455VM USB Over-Ear Stereo Headset

Two new models join the best-selling NC-Series of speech recognition headsets. Built with a more robust profile and Andrea Communications exclusive noise-canceling microphone, the two new members of the NC lineup also feature ALL NEW in-line controls for up/down volume and microphone and speaker mute.

SG-110M Mobile Unidirectional Shotgun Microphone

The new SG-110M features enhanced sensitivity for far-field sound reception. Designed specifically for mobile devices, the SG-110M has a 30-inch shielded cable with a right-angled TRRS plug that can be used with laptops, tablets and most smartphones.

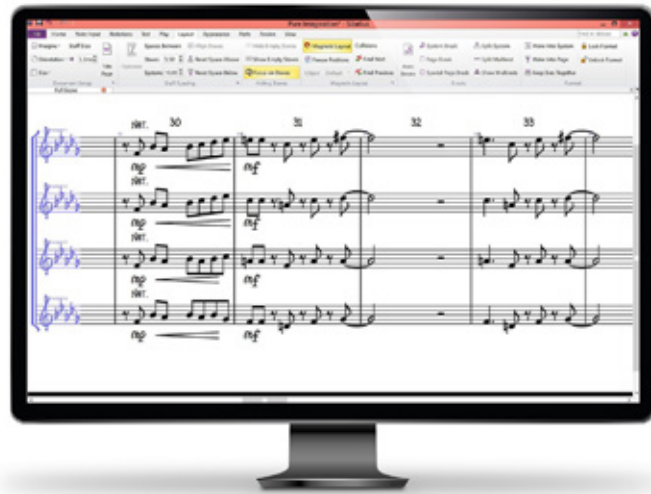

WNC-2100 Mono Wireless Noise-Canceling Bluetooth® Headset & WNC-2500 Stereo Wireless Noise-Canceling Bluetooth® Headset

Designed for use with mobile phones, tablets, and computers, these new WNC Headsets easily pair to any Bluetooth®-enabled device. With an easy-to-use interface that puts the controls right at your fingertips they offer up to 12 hours of talk time. The semi-rigid boom ensures perfect placement of the noise-canceling microphone, and rotates 360° for left or right side usage. A durable padded headband and plush leatherette ear cushions provide all-day comfort. Includes a handy carry case for storage and portability.

For more information about Andrea Communications products, please contact Ted Pratt, Business Development Manager at ep Pratt@andreammunications.com.

The Latest from Pro Tools® and Sibelius®

Pro Tools® 12.7

Create. Collaborate. Be Heard.

Pro Tools now comes packed with 2GB of the freshest loops from the industry's top sound designers at Loopmasters. Also new in this version: Soundbase—a lightning-fast way to browse and experiment with new sounds using descriptive tags.

What's New

This version addresses some minor issues, and more importantly it introduces the new CoreAudio driver for the Pro Tools® HDX and HD Native Hardware.

Sibelius® 8.5

The Fastest, Smartest, Easiest Way to Write Music

Create beautiful, captivating scores more quickly than ever before with the world's best-selling notation software.

What's New

Avid® has upgraded the Inspector panel and built on the features introduced in Sibelius® 8.4—like the ability to have four independent staff sizes.

Transform your iPad® into a Professional DIY Video Production Studio

Tools for the next generation of digital learners

The Padcaster transforms an iPad® into an all-in-one mobile production studio that is rugged, elegant and versatile so users can create professional quality video content that inspires. With the included wide-angle lens, Padcaster shotgun microphone and dual mic/headphone cable, all users need is an iPad® and their imagination. Shoot, edit and upload video on the fly or stream live from an iPad®.

The Padcaster has been adopted around the world by hundreds of schools, districts, teachers, students, coaches, administrators and parents to capture, create and share compelling digital content.

New release from Padcaster

Teleprompter

The Mini Teleprompter sets up in minutes and is perfect for student interviews, morning announcements, on-location news, video bloggers and more.

The Mini Teleprompter uses same quality 70/30R beam splitter glass found in high end teleprompters at a fraction of the cost and works with any smartphone and any number of free teleprompter apps.

See how The Padcaster helped Stony Brook University replace a \$100,000 satellite truck.

Create Videos and Images for Flipped and Blended Learning with Ease

With Camtasia® and Snagit®, instructors can create video lessons straight from their computer screen, and then share them with students to watch anytime, anywhere.

"Students retain more information for a longer period of time if they have used screencasts compared to their peers who used textbooks."

– James Pickering, University of Leeds

Camtasia

Create & edit video lessons

Educators can record what's on their computer screen to create interactive video lessons for flipped and blended learning. They can edit lessons and share videos instantly with the class via email, class website, and more. Add captions, animated callouts, quizzes, effects, even footage from a webcam for personalized e-learning.

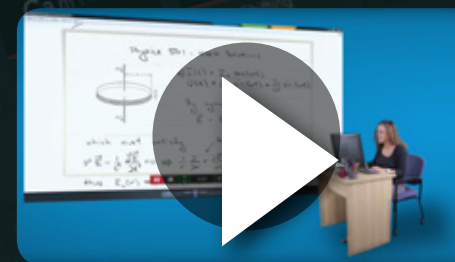

**Watch Camtasia
in action in the
classroom »**

Snagit

Make screenshots & one-take videos

Snagit helps professors capture what's on their screen as polished screenshots, even when the page scrolls. Add words and drawings or make one-take videos and share them with the class. Snagit lets them create content on a PC or Mac®, then send to students for viewing anytime, from any device, even mobile.
