Create STEM Professionals with TurboCAD

TurboCAD is owned and operated by IMSI/Design, the global leader in retail CAD, home design software, and in architecture, engineering, and construction industries. CAD professionals use software to transform technical plans, drawings, and designs into digital images and renderings.

CAD is used in a variety of industries such as:

- » Aerospace
- » Architects
- » Automotive
- » Construction
- » Engineering
- » Fashion
- » Interior design
- » Landscaping
- » And more!

TurboCAD Pro Platinum is premium, professional 2D/3D CAD. It includes all the speed and technology of TurboCAD Pro for drafting, detailing, modeling, and photorealistic rendering, plus advanced architectural and mechanical toolsets and file sharing.
 DSC# 111150 | VENDOR# 00TCP524XX05
 SRP \$299.00 | COST \$208.60

TurboCAD Expert is for experienced 2D/3D CAD users. Get hundreds of drawing tools, an optional AutoCAD-like 2D drafting interface, 3D modeling tools, photorealistic rendering, and more.
 DSC# 111151 | VENDOR# 00TCE524XX
 SRP \$149.99 | COST \$104.64

TurboCAD Deluxe is a powerful, complete 2D/3D CAD software program with hundreds of drawing, modifying, dimensioning, and annotation tools.

The FileMaker Advantage

The FileMaker Platform is simply powerful software for creating custom apps that work seamlessly across iPad, iPhone, Windows, Mac, and the web.

Cloud hosting

Easily share information with fellow students or teachers in the cloud. The new FileMaker Cloud provides secure and reliable access to user's apps.

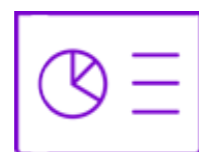

Cross-platform

No matter the size of a team, securely share the same information among users in real time.

Easy integration

Connect to existing data sources such as SQL, ODBC/JDBC, XML, and more!

Built-in reporting tools

Easily create custom reports anytime in a familiar spreadsheet format.

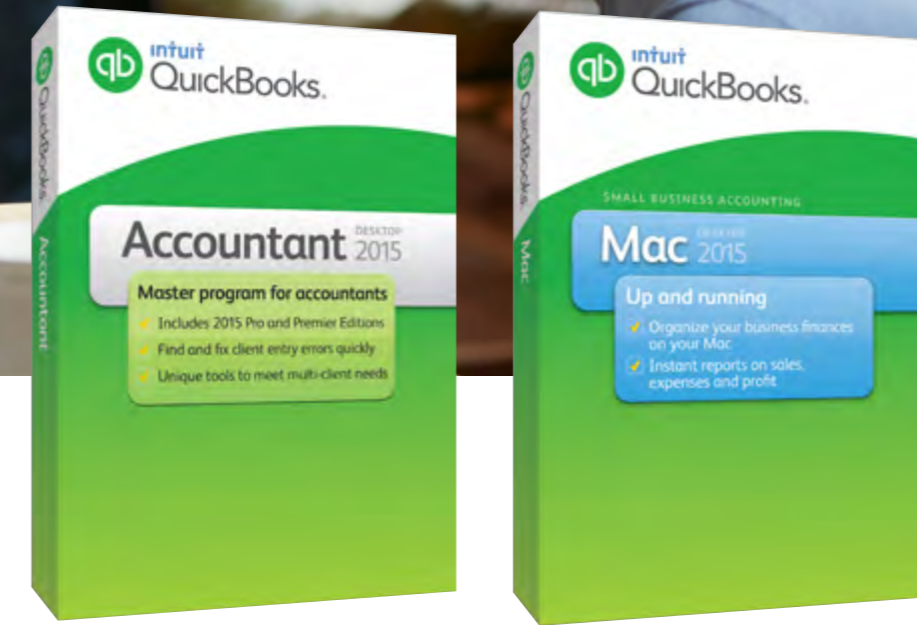

iOS ready

Build powerful apps for iOS devices, users can capture signatures, scan bar codes, add photos and videos and more!

CREATE CUSTOM APPS >

Save Time with Intuit

QuickBooks Accountant is designed for professionals who support multiple accounting clients. It has all the functionality of QuickBooks Pro and Premier, and it includes unique, time-saving tools that help streamline accountants' work including:

ACCOUNTANT TOOLBOX

Use the toolbox directly from a client's QuickBooks Pro or Premier software and complete key tasks right on the spot.

MULTI-INSTANCE

Allows users to open two different files at the same time by opening two instances of QuickBooks Accountant.

CLIENT DATA REVIEW

Gives users 8 specialized tools to help quickly find and fix common data entry errors.

ACCOUNTANT'S COPY

Allows users and their client to work in the same file simultaneously by setting a dividing date in the file.

BATCH ENTER TRANSACTIONS

Enables users to enter hundreds of client transactions, all at once on a screen designed for power data entry. Easily paste transactions from Excel as well.

EMAIL JOURNAL ENTRIES

Create adjusting journal entries and email them to clients for easy and automatic import into their QuickBooks with just a click.

To learn more about Microsoft's software options, please contact us at 800-279-2795.

Awareness generation - Why Creative Cloud for education?

Centralized control.
Centralized deployment gives everyone access to new products as soon as they're released.

Flexible licensing options.
Choose from device licenses for classroom and lab deployment or named-user licenses for each user. Select your contract term.

Teacher and student-friendly.
There is work-at-home licensing for educators, as well as bring-your-own-device support for students.

Easy deployment.
A web-based Admin Console makes it easy to purchase additional seats, add users, and manage software updates.

[Download the Adobe K-12 Overview Flyer >>](#)

Interest building - 3 steps to building customer interest

Ask how your customer is using Adobe products:
"Do you need a solution for a department where collaboration is key or an anonymous user model for labs and classrooms?"

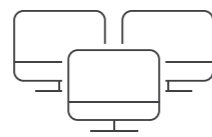

Ask about budget predictability:
"Do you need a solution that offers predictable licensing costs that can align with your budget cycles?"

Ask how the institution is deploying software:
"Do you need a solution for distributing and managing software that is flexible and allows you to easily manage licenses through an Admin Console?"

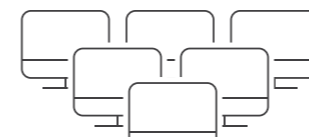

[Download the conversation guide >>](#)

Decision making - Choose from 2 easy-to-manage licensing options

K-12 Site Licenses

- 100+ licenses for students and teachers
- Meet education budget cycles with flexible term options—from 1 year up to 4 years

K-12 District License

- 500+ licenses for students and teachers
- Meet education budget cycles with flexible term options—from 1 year up to 4 years

[Download the VIP Program Guide >>](#)

Action - Join now for the opportunity to receive deployment assistance

Support for your customers. With the purchase of Adobe Creative Cloud K-12 licenses your customers may be eligible to receive 1 hour of complimentary deployment assistance from an Adobe Specialist.

Security through Visibility, Control and Response

Regardless of whether your customers adopt a BYOD or 1-to-1 program, controlling access to the network and keeping users safe and happy is challenging. With the help of Bradford's Network Sentry, you can simplify network access by providing IT departments complete network visibility, automation, and control for a diverse set of students, faculty, staff, and all their networked devices.

Network Infrastructure Visibility

Network Sentry provides a real-time view of network infrastructure, ensuring that IT can detect and prevent any changes that would introduce risk.

Device Profiling and Fingerprinting

Network Sentry helps identify and classify each device on the network and identify the user on the device to enable role-based access policies.

Endpoint Compliance

Network Sentry ensures the integrity of wired and wireless devices before they connect to the network minimizing the risk of vulnerabilities.

Network Provisioning

Network Sentry ensures the right users on the right devices gain access to the right set of network segments.

Guest Management and Self-Registration

Network Sentry simplifies onboarding by streamlining the registration process—an admin can handle them, or when appropriate, guests can self-register.

EasyConnect

Network Sentry allows schools to immediately and securely connect personnel or issued devices to the network, and automatically sets configurations, encryption type, and other critical security settings.

To learn more about Network Sentry or to receive a quote,
please contact us at licensing@dstewart.com.

Safer students. Better learning.

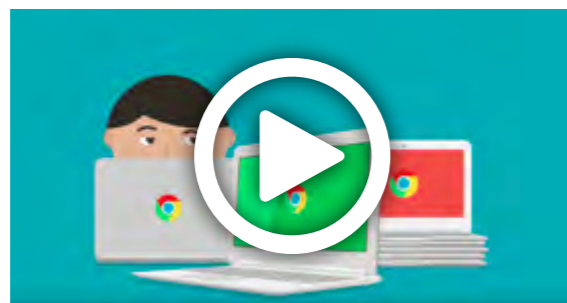

Protection that improves performance

GoGuardian helps keep students safe when they're online, help teachers engage with students, and provide schools with better control over how their technology is used. With GoGuardian, educators can harness the power of the internet for learning, without harmful content or distractions getting in the way.

GoGuardian for Admins™

With GoGuardian for Admins, educators can ensure online safety, detect serious matters such as bullying or suicide intent, and open a dialogue between teachers, parents, and students when needed.

- **Advanced YouTube Filter**—Granular control over which videos and comments students can see.
- **Flagged Activity Reporting**—Recognize inappropriate behavior based on selected terms and keywords.
- **Activity Oversight**— Discover insights and data that help gauge technology effectiveness.

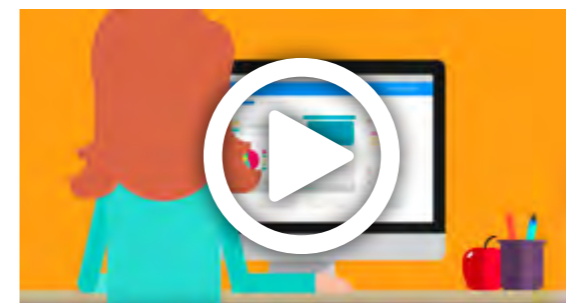

SEE HOW IT WORKS »

GoGuardian for Teachers™

Built with input from educators, GoGuardian for Teachers helps drive student success, focus, and engagement in the classroom.

- **Screen Viewer**—See what's on students' screens during a session and save screenshots.
- **Activity Timeline**—Every student's browsing activity – in real time – on a single, easy-to-navigate page.
- **Browser Lock**—Disable browsing and darken screens for "eyes-up-front" focus during lessons.

Service Desk Simplified

Restore a device that's been corrupted and bring it back to its last known desired state with a single reboot.

Universities, colleges, schools and vocational training institutions confront unique IT challenges that include:

- Classroom devices are mis-configured and running slow
- School-owned PCs are riddled with debilitating viruses from unsupervised usage
- Daily reset of requirements for computer labs
- Multi-user devices in libraries and kiosks open to abuse

The answer has typically been to re-image. Not anymore.

Utopic's Persysent Suite simplifies the restoration and recovery process by applying an automated self-healing capability that repairs and recovers any PC without manual intervention. It quickly and effectively removes any unauthorized changes to the operating system. But more importantly, it gets students, faculty and staff back up and running in seconds...and gives IT the details to discover and prevent root causes.

Engage Visual Learners with tools from Inspiration

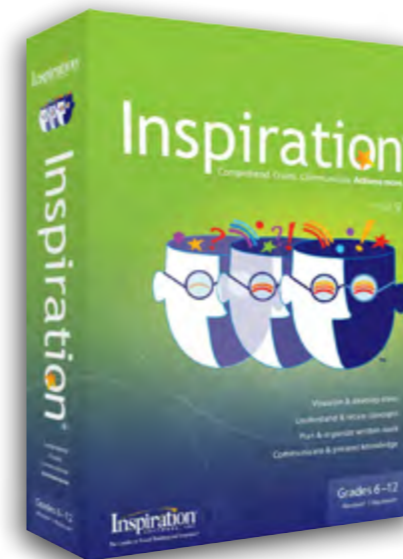

Inspiration's award-winning software tools, Inspiration[®] and Kidspiration[®], are based on proven visual learning methodologies that help students think, learn, and achieve.

With the powerful combination of visual learning and technology, students in grades K-12 learn to clarify thoughts, organize and analyze information, integrate new knowledge, and think critically.

Kidspiration 3

Kidspiration works the way students think and learn and the way teachers teach. As students make visual connections, they build fundamental skills in reading, writing, math, science and social studies. Kidspiration offers activities in all curriculum areas, so students use visual learning naturally and confidently.

Inspiration 9.2

For visual mapping, outlining, writing and making presentations, use Inspiration[®] 9.2, the ultimate thinking and learning tool. With Inspiration's Presentation Manager, transform your diagrams, mind maps and outlines into polished presentations that communicate ideas clearly and demonstrate understanding and knowledge.

Introducing the ESD Sales Portal

Selling Software is Back on the Table

The Douglas Stewart Company's ESD Sales Portal is a resource for you to deploy essential ESD (Electronic Software Downloads) to your students in store! By using a platform that is more conducive to current device form factors and student retail expectations you can now generate revenue on software sales with minimal overhead.

Program details:

- Customize your portal to include a store or school name and logo
- Add additional users to the account and adjust access levels
- Choose which ESD SKUs to offer your students within the portal
- Update student pricing to account for everyday pricing or promotional pricing levels
- The portal can be loaded onto any device in store to allow your customers to place their ESD orders. Stores must have in-store Wi-Fi for customers to gain access to the portal
