Students Deserve to be Heard!

Classrooms are noisy, but that's not a problem with quality EDU Headsets from Andrea Communications.

Both the EDU-255 Series and EDU-455 Series Headsets feature the renowned, 6-Dragon rated Andrea noise-cancelling microphone, the same one used in the acclaimed NC-Series of speech recognition headsets. EDU Headsets have a heavy-duty rigid boom and swivel that allows for perfect mic placement, so no word will be missed.

Whether users choose the On-Ear EDU-255 Series or the Over-Ear EDU-455 Series, they will be impressed by the sound quality from the 40mm speakers. Easy-to-clean, plush leatherette ear cushions are comfortable to wear and the adjustable headband makes EDU Headsets the perfect choice for students of all ages. The headsets are available with three connection types - dual plug, single plug and USB - so they are suitable for any device.

Our EDU Series of products was designed specifically for use by students of all ages. Our headsets, headphones and USB sound card are built to withstand the rigors of classroom usage.

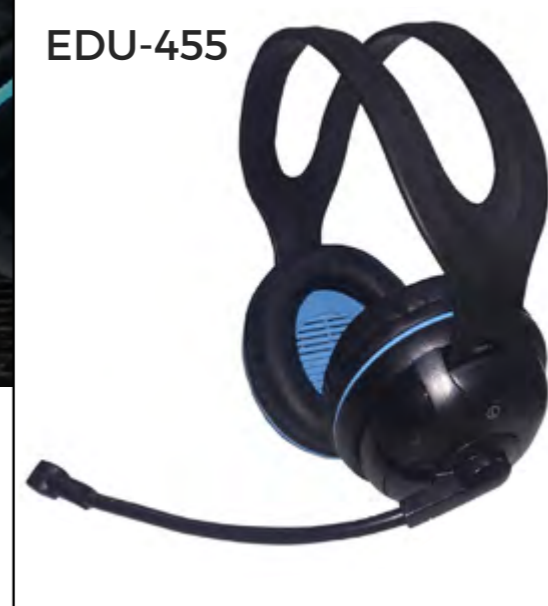

With Andrea Communications EDU Headsets, your customers will see enhanced performance from their education software, which means better results for their students.

EDU-455

Equations Everywhere and Anywhere™

MathType™ For Windows & Mac

MathType is a powerful interactive equation editor for Windows and Mac that lets you create mathematical notation for word processing, web pages, desktop publishing, presentations, eLearning, and for TeX, LaTeX and MathML documents. MathType works with Microsoft Word, PowerPoint, Apple's Pages and 800+ other applications and websites. MathType™ is used by scientists, engineers, educators, students and publishing professionals for authoring and publishing mathematical notation in print and online content.

"I have been using MathType for years,
and can't imagine trying to live in a math
or science classroom without it."

- John Mann, High School Science Teacher

CASL 10% OFF PROMO

Douglas Stewart is working exclusively with Corel on a CASL (Corel Academic Site Licence) promo of 10% off SRP which will be in effect until the end of 2017. This is a good opportunity to sell new CASL agreements to Universities and Schools and encourage renewal for multiple years while the price is lower.

Introducing iClone 7 from REALLUSION! **COMING SOON!**

Reallusion is a leader in the development of 3D cinematic animation tools for consumers, students and professionals. Recognized as an industry pioneer, the company provides consumers with easy-to-use avatar animation, facial morphing and voice lip-sync solutions for real-time 3D filmmaking and previsualization for professional post-production.

WHAT WILL YOU GET FROM ICLONE 7?

Visual Enhancements

- Physically-based Rendering
- Real-time Global Illumination
- Dynamic Image-based Lighting

[Know more »](#)

Professional Animation

- Real Camera System
- Morph Animation Editor
- Pro Facial System

[Know more »](#)

Open Architecture

- iClone 7 APIs
- Motion Curve Graph Editor
- Python Scripting
- LUT & Color Toning
- Custom Shader

Visual Enhancements

Reallusion has transformed iClone 7 into a completely new visual powerhouse built to perfectly animate a new generation of PBR (Physically-based Rendering) content. Experience how Global Illumination turns a normal 3D scene into a photo-realistic world with Image Based Lighting that demonstrates seamless blending between different image-based sources, while allowing you to bake HDR IBL maps right on the spot, from your very own 3D scenes.

Professional Animation

Continuing our commitment to escalating our 3D animation, several new features are introduced in iClone 7. Indies and studios will be empowered with an industry-standard camera system, in-depth facial animation editing, morph animation from blendshapes, and real-time facial mocap. The innovations coming to iClone 7 are designed to enhance the creative possibilities for every user by delivering a range of accessible and increasingly professional animation tools.

The Latest from Pro Tools® and Sibelius®

Pro Tools® 12.7

Create. Collaborate. Be Heard.

Pro Tools now comes packed with 2GB of the freshest loops from the industry's top sound designers at Loopmasters. Also new in this version: Soundbase—a lightning-fast way to browse and experiment with new sounds using descriptive tags.

What's New

This version addresses some minor issues, and more importantly it introduces the new CoreAudio driver for the Pro Tools® HDX and HD Native Hardware.

[Learn More »](#)

NEW! Sibelius® 8.6

The Fastest, Smartest, Easiest Way to Write Music

Create beautiful, captivating scores more quickly than ever before with the world's best-selling notation software.

What's New

This release introduces Magnetic Glissandi, streamlining the creation and manipulation of gliss., port. and wavy lines, as well as fixing a whole host of long standing bugs in Sibelius, improving the stability and overall speed of the program.

[Learn More »](#)

Avid Selector Tool

Avid have introduced a Selector Tool programme for key Sibelius and Pro Tools resellers; this tool will help sell Avid products more efficiently and boost sales.
