SRP \$487.96 | Cost \$361.66

## 2017 Summer Recap

Add a single PopSocket, or a pair of PopSockets, to the back of almost any mobile device to transform its capabilities. PopSockets "pop" whenever students need a grip, a stand, an earbud-management system, or just something to play with.

A sensory adventure awaits with the Utopia 360° Virtual Reality Headset, designed to work with any smartphone. Choose from hundreds of VR-compatible apps and buckle up!

Technology-inspired bags and cases for students so they get the maximum lifetime value out of laptops, notebooks, tablets, and other devices. They are built to last, with extra-strength, high-end materials, and rugged construction so they can withstand the bumps and bruises of heavy, everyday use, while keeping electronics completely safe.

Commuter bags, sleeves, and cases designed to keep your student's laptop protected while they're on the move.

Wonder Workshop's award-winning robots, bring to life the creativity and critical thinking of coding. Dash, Dot, and the NEW Cue make learning coding meaningful and fun. Children interact with the robots' unique behaviors through a tablet or smart phone and a growing suite of apps.

PowerGistics has created the ideal solution for mounted charging stations. The revolutionary design saves space in the classroom – stations can store and charge up to 20 devices. With customizable shelves, users don't have to worry about devices not fitting in the slot.

## 2017 Spring Recap

**YEVO**

The YEVO wireless ear piece is a new generation of smart headphones without any wires, for total freedom of movement. Engineered to musical perfection, cutting-edge technology, and designed to be featherweight in an incomparable harmony of tech and style.

**AIRCOM**

Aircom's patented airtube technology uses an air-filled hollow tube to increase air space and sound development which produces more body and delivers a "live" listening experience that your students can feel.

**PUREGEAR**

PureGear designs reliable mobile device accessories that complement today's demanding, on-the-go lifestyles. Their products are designed with added features and benefits that make sense – for work or play.

**Lenovo**

Lenovo's portfolio now includes workstations, servers, storage solutions, IT management software, smart TVs, tablets, smartphones, and even apps. They are continually innovating, and enable customers to challenge and inspire everyone around them.

**littleBits**

littleBits is an infinitely creative collection of electronic building blocks that snap together with magnets. littleBits make STEAM learning in the classroom or makerspace fun, and easy to teach with fully developed curriculum and content. Each kit provides a full experience on its own, but can be combined to unlock even more inventions and learning.

**POLAR3D**

The Polar 3D printer is a revolutionary version of 3D printing for the modern classroom. The Polar3D printer is the world's first 3D printer based on polar coordinates. This radical design innovation enables an open view and a 360° range-of-motion build platform delivers four times the build volume.

**cubelets**  
ROBOT BLOCKS

Modular Robotics makes Cubelets® – pre-programmed magnetic blocks that can be snapped together to make an endless variety of robots. Students of all ages can build robots that drive around, respond to light, sound, and temperature, and ultimately, code their robots to exhibit new behaviors. Let students take control and watch what they develop!

**IMSI**

IMSI is the global leader in retail CAD (Computer Aided Design) and home design desktop software, and a pioneer in mobile solutions for the AEC (Architectural, Engineering, and Construction) industry.

**INCOMEDIA**

Incomedia develops and sells software solutions that lets everyone get professional-looking results quickly and easily by making website creation simple.

**iolo**  
technologies

Fixes errors, boosts performance, eliminates crashes, defends against infections, and proactively prevents problems from reoccurring.

**MARINER**  
SOFTWARE

Mariner develops, sells, and supports software for the productivity, writing, and creative markets.

**SecureIT**  
Complete. Computer. Protection

New digital threats appear every day, but with SecureIT, customers get industry-leading essential protection, plus the convenience of never needing to update their software. SecureIT works silently in the background, protecting computers and mobile devices from all manner of threats.

**VIPRE**

The top-rated, award-winning VIPRE Advanced Security puts the world's most sophisticated security technologies in your consumers' hands.

**Transparent**  
Language

A language-learning platform that transforms the way organizations conduct their language learning programs. Today, Transparent Language enables government organizations, educational institutions, libraries, and companies around the world to train faster and with more reliable results.

## 2017 Winter/Spring Recap

MEEM is the only product of its kind in existence: A phone charger and automatic back-up device all in one cable. Every time your student charges their phone, MEEM automatically backs up the personal data held on it to the cable itself; making MEEM a simple solution that maintains the safety and security of your users' information while fitting into their daily routine.

Consumer Priority Service offers extended warranty coverage for virtually all high ticket consumer purchases ranging from high-end consumer electronics to computers to major appliances and more.
