Transform any iPad® into an all-in-one mobile production studio

Most schools, colleges and universities throughout the world own or have access to iPads. The Padcaster has been designed to help these institutions make the most of their devices.

The basic Padcaster set-up consists of an iPad frame system, wide lens and shot-gun style mic. However, Padcaster can be taken one step further and upgraded to the 'Ultimate Studio' bundle. This kit adds a fluid-head tripod, pop-up green screen, stick and lav mic with clamp-system, LED light, mini teleprompter and padded backpack.

This solution enhances the visual and audio quality from the iPad and can be used by any iPad-user to create professional video.

Padcaster BETT Show Special – SAVE 10% SRP £999

Please note this pricing is for a limited time only and does not include the cost of shipping or VAT.

Padcaster Ultimate Studio

- Padcaster Basics PLUS
- XP-38 LED light
- Stick Microphone
- Lavalier Microphone
- Three-Piece Clamp System
- VT-16 Fluid Head Tripod
- Padded Backpack
- Pop-up Green Screen
- Mini Teleprompter

Padcaster BETT special pricing applies to all Ultimate Studio models including the new iPad Pro 10.5 version.

For more information or to see the full product range, please check out our [complete guide to Padcaster](#).

pi-top

pi-top is an award-winning ecosystem and believes in giving every child the opportunity to be inspired by STEAM.

The new pi-top modular laptop

You start by snapping the laptop together yourself. The new pi-top is a modular laptop (powered by Raspberry Pi) & introduces an all-new sliding keyboard. Slide back the keyboard to reveal an exciting new world of electronics, coding & science.

[READ MORE »](#)

The modular desktop pi-topCEED

The pi-topCEED is a 'plug & play' desktop powered by the Raspberry Pi microcomputer. Remove the acrylic slice to reveal the magnetic rail for creating projects and experimenting. It's designed for anyone with the hunger to explore & innovate.

Professional Video & Audio Production and Disc Authoring

Find out why VEGAS PRO is the industry standard in video editing software according to PRO VIDEO COALITION.

[Vegas Pro 15 compared to rivals »](#)

“All in all, VEGAS Pro has capabilities that are not available in any other NLE along with features that are just as powerful if not more so than the competition. The modern intuitive user interface and organic timeline-editing workflow delivers a completely customizable experience that provides the ultimate flexibility. It’s been designed with professional users in mind, to support our preferred workflow. That’s something you can see and feel after spending even a little bit of time with it.”

WALL MOUNTED, FREE STANDING & MOBILE SOLUTIONS BUILT FOR THE MODERN CLASSROOM

KEY FEATURES

- 1. Anchor Key-Hole:** Anchors the spine to the wall, while still allowing access to the back by lifting the tower and pulling forward.
- 2. Cable Management Eyelet:** Utilize the eyelet to lock each cable, allowing enough charging cable for the students to plug in their devices, yet locks the cable in place to eliminate loss and damage.
- 3. Custom Shelf Colour:** Wall mount towers come in an 8, 12 and 16 shelf configuration. The 4 colour option allows for a visual boost to any work space.
- 4. Baseboard cut out:** With many schools and offices having baseboard or trim around many walls, this cut-out allows for seamless placement against the wall & floor.
- 5. Power cord access:** Convenient access while hiding the power cable.
- 6. Floor Standing:** The floor carries the weight while the wall mount keeps the tower upright.
- 7. Open Concept Door:** Allows for quick visual inventory of devices, while the steel door ensures security.
- 8. Keyed Lock:** 2 position lock that requires a key ONLY to unlock door. Option for keyed alike or keyed independent.
- 9. Side Strip:** Allowing for extra security, the side strips lock the shelf into place and eliminates device access from the side.

3Doodler[®] EDU

3Doodler is the world's first (and best!) 3D printing pen. It works just like a 3D printer – extruding plastic that cools and hardens instantly, allowing you to literally draw in the air. The printer is held and controlled by hand making it easy to use and accessible to all students.

Whether the subject is Science, Technology, Engineering, Art, Maths or any cross-curriculum combination, thousands of schools are already using the 3Doodler to instantly add an element of creativity and design as a complement to technical skills.

The 3Doodler Start is specially designed to be clean and safe for kids aged 6+ with no hot parts or messy resins or glues to contend with. It uses an 3Doodler Start Plastic that's completely biodegradable, non-toxic and BPA-free.

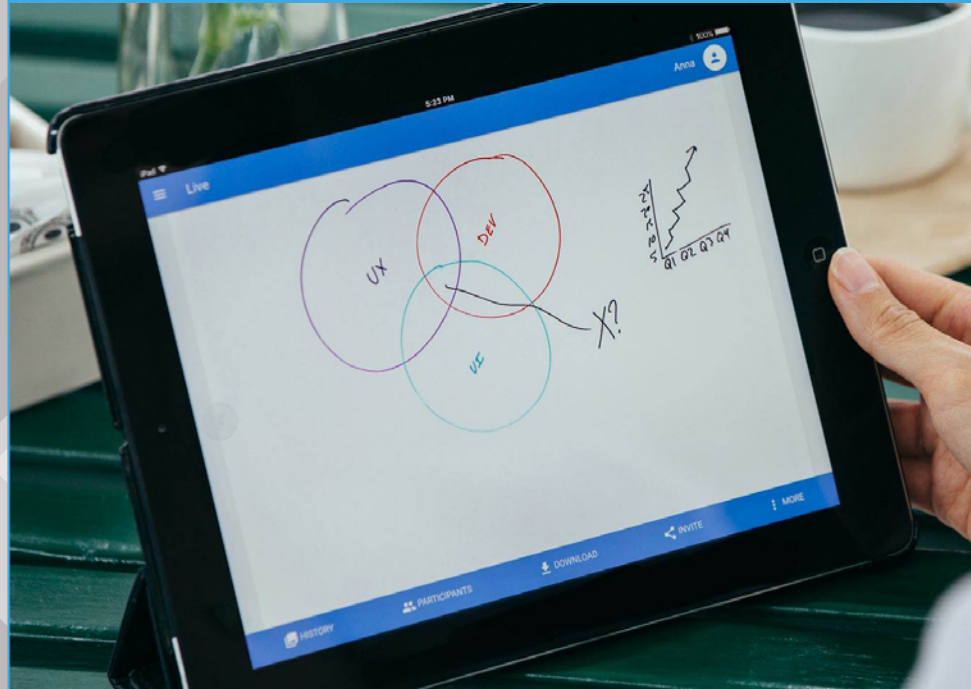

Designed to be compact and east to use the 3Doodler Create has 2 speeds and 2 temperature settings which make it capable of handling more materials as well as precision Doodling.

3Doodler EDU Classroom Bundles Available

EDU classroom bundles are available for the 3Doodler Start and 3Doodler Create pens in both half and full sizes. Contact us to find out more about these excellent value packages today!

A unique cloud-connected camera that transforms any standard whiteboard into an online collaboration tool for sharing and video conferencing

Simply share with anyone anywhere.

Dry erase whiteboards allow people to work fast and corroboratively but there is no way to easily share or save the board content outside the meeting room.

Kaptivo allows whiteboards to be seen beyond the conference or classroom by easily integrating with any video conference system and any whiteboard.

Kaptivo is quick to install and effortless to use and makes sharing, recording and saving whiteboard content simpler.

Contact us for more information or to become a Kaptivo authorised reseller.

Turn written text into animated videos

Plotagon lets anyone create amazing animated videos by choosing a scene, creating and adding your own actors, writing what they say and add emotions, sound effects and music. Plotagon puts an animation studio in the palm of your hand.

ABBYY's flagship PDF desktop software

ABBYY FineReader 14 is an all-in-one PDF and OCR software application for increasing document productivity. It provides powerful tools for convenient work with both scanned paper documents and PDFs.

“I have used ABBYY FineReader to support academic work for several years, and have always found it the best OCR product for multilingual texts, especially for those containing non-standard characters that require the program to be trained”.

Alec McAllister

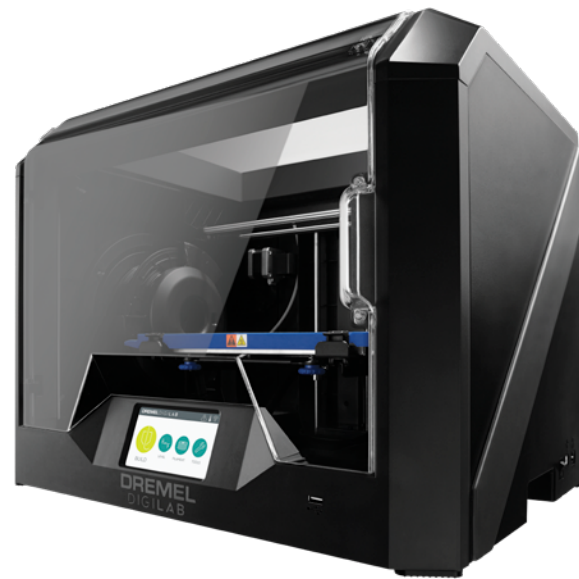

Multilingual Computing Co-ordinator - University of Leeds

Choose the right FineReader

ABBYY FineReader 14 comes in three different editions to satisfy different needs when working with documents. From the daily interaction with PDFs and scans to automated conversion of batches of documents. From individual use to department or organisation-wide installation.

ABBYY FineReader 14	Standard	Corporate	Enterprise
Convert PDF's and Scans	✓	✓	✓
Edit and Comment PDFs	✓	✓	✓
