Making it simple to hang papers, photos, and posters with no hassle and no damage to the wall.

Support Everything

Incident IQ is a cloud-based technology support platform that allows school districts to effectively support all the hardware, software and systems that teaching and learning depends on.

Hardware

Student and teacher laptops, projectors, document cameras and more – empower technicians with efficiency tools, asset data on demand, and a dynamic knowledge base.

Student Information Systems

Accelerate time to resolution for SIS issues with powerful integrations that ensure accurate issue reporting so specialists can start working the problem immediately.

Network

Network tech is the backbone of a school's communications. Tailored workflows for mission-critical network issues ensure superior support for this foundational element.

Software

Deliver training and support more efficiently with tools designed specifically for the most-popular content, assessment and communication products.

Learning Management Systems

The critical hub that teachers and students rely on to communicate, complete assessments, and record progress. Our LMS integrations empower superior support.

Facilities

From facilities support requests to preventative maintenance, efficient communication with facilities staff is crucial to keep schools running.

2017 Fall/Winter Recap

LucidSound crafts audio products specifically for the needs of gamers in their everyday lives. The headsets are designed with features for use on the go with a sleek designs and simple intuitive controls.

BullGuard combines technical expertise with an understanding of educational security needs to deliver complete protection across all connected devices. They're your customers own private bodyguard—tracking and tackling security threats so they can connect confidently, control easily, and travel freely throughout the digital world.

Energizer continues to fulfill its role as a technology innovator by redefining portable power and wireless charging solutions to meet people's active lifestyle needs for today and tomorrow with Energizer® chargers for rechargeable portable devices.

Libratel offers premium cell phone accessories so students can get the most out of their mobile devices at an economical price.

Only ScreenBeam enterprise-grade receivers support interactive touch for true real-time interaction, making it quick and easy to connect and collaborate productively in any meeting or classroom wirelessly.

iOgrapher has various bundles that transform most mobile devices into a full-blown video camera. Whether in class or on the playing field, iOgrapher provides an easy solution for real-time learning and feedback.

2017 Summer Recap

Add a single PopSocket, or a pair of PopSockets, to the back of almost any mobile device to transform its capabilities. PopSockets "pop" whenever students need a grip, a stand, an earbud-management system, or just something to play with.

A sensory adventure awaits with the Utopia 360° Virtual Reality Headset, designed to work with any smartphone. Choose from hundreds of VR-compatible apps and buckle up!

Technology-inspired bags and cases for students so they get the maximum lifetime value out of laptops, notebooks, tablets, and other devices. They are built to last, with extra-strength, high-end materials, and rugged construction so they can withstand the bumps and bruises of heavy, everyday use, while keeping electronics completely safe.

Commuter bags, sleeves, and cases designed to keep your student's laptop protected while they're on the move.

Wonder Workshop's award-winning robots, bring to life the creativity and critical thinking of coding. Dash, Dot, and the NEW Cue make learning coding meaningful and fun. Children interact with the robots' unique behaviors through a tablet or smart phone and a growing suite of apps.

PowerGistics has created the ideal solution for mounted charging stations. The revolutionary design saves space in the classroom – stations can store and charge up to 20 devices. With customizable shelves, users don't have to worry about devices not fitting in the slot.

2017 Spring Recap

YEVO

The YEVO wireless ear piece is a new generation of smart headphones without any wires, for total freedom of movement. Engineered to musical perfection, cutting-edge technology, and designed to be featherweight in an incomparable harmony of tech and style.

AIRCOM

Aircom's patented airtube technology uses an air-filled hollow tube to increase air space and sound development which produces more body and delivers a "live" listening experience that your students can feel.

PUREGEAR

PureGear designs reliable mobile device accessories that complement today's demanding, on-the-go lifestyles. Their products are designed with added features and benefits that make sense – for work or play.

Lenovo

Lenovo's portfolio now includes workstations, servers, storage solutions, IT management software, smart TVs, tablets, smartphones, and even apps. They are continually innovating, and enable customers to challenge and inspire everyone around them.

littleBits

littleBits is an infinitely creative collection of electronic building blocks that snap together with magnets. littleBits make STEAM learning in the classroom or makerspace fun, and easy to teach with fully developed curriculum and content. Each kit provides a full experience on its own, but can be combined to unlock even more inventions and learning.

POLAR3D

The Polar 3D printer is a revolutionary version of 3D printing for the modern classroom. The Polar3D printer is the world's first 3D printer based on polar coordinates. This radical design innovation enables an open view and a 360° range-of-motion build platform delivers four times the build volume.

cubelets ROBOT BLOCKS

Modular Robotics makes Cubelets® – pre-programmed magnetic blocks that can be snapped together to make an endless variety of robots. Students of all ages can build robots that drive around, respond to light, sound, and temperature, and ultimately, code their robots to exhibit new behaviors. Let students take control and watch what they develop!

IMSI

IMSI is the global leader in retail CAD (Computer Aided Design) and home design desktop software, and a pioneer in mobile solutions for the AEC (Architectural, Engineering, and Construction) industry.

INCOMEDIA

Incomedia develops and sells software solutions that lets everyone get professional-looking results quickly and easily by making website creation simple.

iolo technologies

Fixes errors, boosts performance, eliminates crashes, defends against infections, and proactively prevents problems from reoccurring.

MARINER SOFTWARE

Mariner develops, sells, and supports software for the productivity, writing, and creative markets.

SecureIT Complete. Computer. Protection

New digital threats appear every day, but with SecureIT, customers get industry-leading essential protection, plus the convenience of never needing to update their software. SecureIT works silently in the background, protecting computers and mobile devices from all manner of threats.

VIPRE

The top-rated, award-winning VIPRE Advanced Security puts the world's most sophisticated security technologies in your consumers' hands.

Transparent Language

A language-learning platform that transforms the way organizations conduct their language learning programs. Today, Transparent Language enables government organizations, educational institutions, libraries, and companies around the world to train faster and with more reliable results.
