Painter® 2019

Achieve stunning results

with the industry standard in digital painting

We recognize that not all companies are alike—and neither are their artistic needs. As a result, we offer an expansive variety of powerful artistic brushes and tools to complete a wide range of creative jobs. Our innovative tools are trusted and used by professional artists worldwide and can complement any artistic workflow.

Enjoy an incredible painting experience with intuitive tool

World's most realistic Natural-Media®
Enjoy the largest selection of Natural-Media brushes and canvas textures on the market, with wet, thick and dry media that looks and feels just like the real thing.

Exclusive digital art brushes
Ensure one-of-a-kind art using Painter's proprietary media, including Pattern Pens that produce visionary strokes from patterns, Particles that spring, flow and glow, and so much more.

Streamlined photo-painting tools
Produce a sellable masterpiece by allowing the Auto-Painting palette to rapidly paint a photo or dip any brush into the photo for a hand-hewn work of art.

Flexible and productive
Create custom brushes and palettes, or import custom content from others that exponentially speeds up the artistic workflow and allows for easy collaboration.

Gilbert Acu

Painter is a boundless digital art studio for artists of all kinds

Find all the professional tools needed to craft the ultimate artistic masterpiece for any genre or project.

- **Concept Artists**
  Take advantage of Painter's versatility to quickly develop a concept design for a motion picture, video game art, or professional character concept art.

- **Illustrators**
  Create a character, package design or promotional piece, or publish a fantasy art illustration using all the tools needed to bring a vision to life.

- **Manga & Comic Artists**
  Choose from a wide range of sketching, drawing and inking tools, to easily draw manga characters or comics in a spectacular world.

- **Photo Artists**
  Use powerful Auto-Painting and Cloning tools to paint photos and produce visually stunning sellable works of photo art.

- **Fine Artists**
  Balance the mixture of realistic natural media and supernatural media types in a way that only this digital art and painting software can deliver.

Getting the conversation started:

- Does your organization have a digital art standard for the creation of painted concepts or final artwork?

- Would the ability to create and share custom brushes and art content streamline your creative process?

- Is your company looking for an artistic complement to Adobe Photoshop that is compatible with .PSD files?

Benefits of B2B licensing

Any business or academic institution should be buying B2B licensing rather than a consumer build, which is a retail box or electronic software download/ESD.

Take a look at the rights that are provided with our Enterprise License, including CorelSure Maintenance, and are not included with our consumer build:

- Flexible and affordable per seat licensing, volume discounts

- Network deployment

- A single key can install multiple copies, to enable a smoother, faster, centralized deployment

- License administration, the IT administrator has the flexibility to provision, track and deploy the software based on your organization's security requirements

- Support for desktop virtualization, additional flexibility in deployment

- Cumulative license count pricing, benefit from further cost savings if additional licenses need to be added later on

- Perpetual license, you own it

- Multilingual and multi-platform support make it easy for your business to respond to the demands of a global marketplace and workforce

- CorelSure software maintenance, designed to ensure the greatest possible return on your software investment, while minimizing your risk

See why Painter is the complete digital painting solution for business use

We have plans and solutions for teams of all sizes and flexible licensing options that could save you money in the long run:

• Corel Transactional Perpetual Licensing

  ◦ Corel Volume Licensing offers flexible and affordable per-seat licensing. Add or remove seats as you need them and the cost drops as seat count increases.

• Eliminate high cost and difficult cloud subscriptions. Pay once and be perpetually licensed—or purchase CorelSure maintenance and always have the latest version.

• Full network deployment and virtualization support available.

• Multi-lingual deployment.
