Motivated by Innovation

Technology for students on the go

Since 1995, Naztech Technologies has provided distinctive lines of leading-edge consumer technology products; perfecting the ultimate blend of form and function. Their global engineering and design teams skillfully incorporate proprietary and patented technologies, precision handcraftsmanship, and innovative and ergonomic designs with the most advanced and highest quality materials on the planet. Naztech products include compact high-powered chargers, car accessories, iPhone® accessories, and portable power solutions, as well as waterproof and weatherproof models and accessories designed for reliability, convenience, and utility.

Android Safety Essentials Car Kit

Get your students geared up for the road. This 3-part Safety Essential Car Kit has everything they need. The MagBuddy Air Vent Mount will firmly secure their device at eye level and within easy reach with its powerful magnetic grip to keep navigation, hands-free calling, and music control securely at their fingertips even on the bumpiest roads.

- Dual USB Car Charger features Adaptive Fast Charge
- Hybrid USB-C and Micro USB Cable is durably built for active daily use
- MagBuddy Air Vent Mount magnetically mounts mobile devices with an attractive “floating” look

Keep Browsing History Private with NordVPN

Experience internet with no borders

NordVPN encrypts online data and creates a secure tunnel between the user's device and the internet. The VPN shields users from prying eyes and from intrusive advertisements and online threats. It just takes a few clicks to download and install so they can start protecting themselves.

NordVPN is the easiest way for your students and educators to stay secure and private online. It uses military-grade encryption to create a secure tunnel between them and the internet. Keep your students and educators safe and secure on public Wi-Fi, let them experience the internet with no surveillance, and help them avoid censorship. They can enjoy lightning-fast speed and secure access to streaming websites, censored content, and social networks wherever they are.

Internet Privacy Software - 12 Month Subscription for up to 6 Devices

Ideal for children with ADD or ADHD, as well as being a strong way to keep focus, the Kore Wobble Chair provides an outlet for restlessness and extra energy. This means a higher level of attention, focus, and retention for each and every student.

Kids Wobble Chair

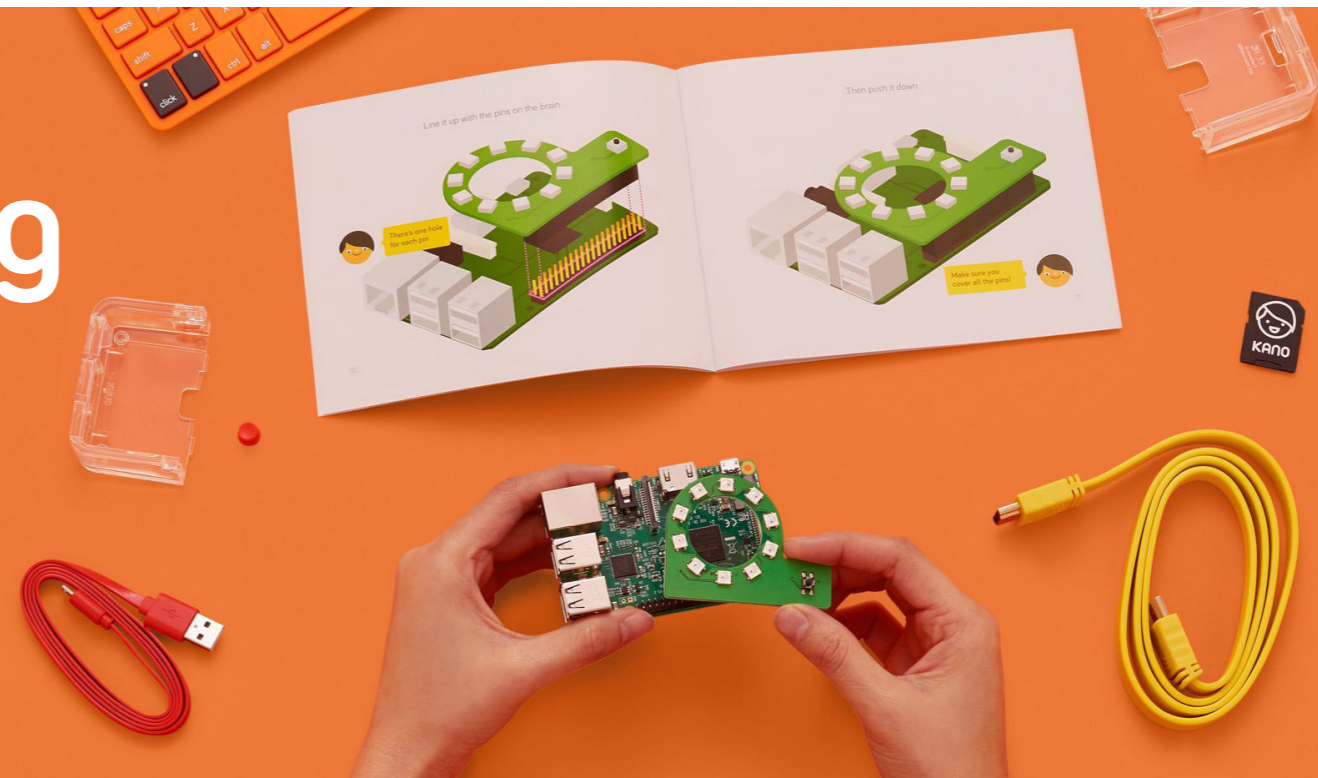

This chair transforms the boring conventional seat into a playground for your child's imagination. Regular chairs force children's bodies to conform to an unnatural posture. The innovative Wobble Chair allows one's knees, hips, and back to move and find comfortable and ever-changing positions. This is ideal for children of all ages, sizes, and heights. The patented anti-roll safety ring on the base prevents tip-overs and falls.

Add a New Dimension to the Classroom

FlashForge was created with the vision to create a joyful 3D life by providing cost-effective and high-quality 3D printers to students and educators. All of Flashforge 3D printers have been CE, FCC, and RoHS certified to ensure safety and quality.

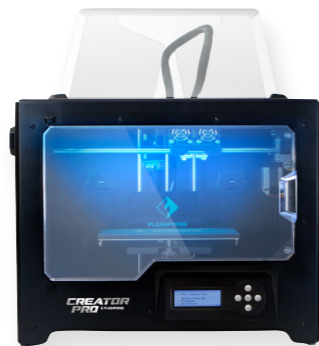

With 3D printers, educators can add a new level of context and understanding to their lessons.

Inventor II S 3D Printer with Courses

The Flashforge Inventor II S 3D printer is another trim of the Inventor II with additional features. In addition to all the specs that its predecessor boasts, the Inventor II S is now equipped with a built-in HD camera for users to watch the printing process remotely. The magnetic flexible bed sheet provides great printing support and allows for effortless print removal. This is a filament-based 3D printer designed for children and beginners.

DSC# 125028 | Vendor# 3D-FFG-INVENT2SE | SRP \$1,275.89 | Cost \$1,005.39

Creator Pro

Upgraded from the outside in, Creator Pro is a very reliable 3D printer with excellent precision and professional quality. The sturdy metal frame increases stability of the printer's moving parts. Metal platform support and 10mm z-axis guide rods allow for precise movement of the z-axis. The versatile chamber provides different printing environment for different materials.

DSC# 125024 | Vendor# 3D-FFG-NPRO | SRP \$1,182.50 | Cost \$976.66

Inventor

This filament-based 3D printer, with a totally enclosed design, is safe to use indoors and around children. It features a stunning 50 micron print resolution for head-turning quality. The printer is equipped with five cooling fans and a temperature-activated sensor that regulates the build chamber temperatures.

DSC# 125026 | Vendor# 3D-FFG-INVENTOR | SRP \$1,642.87 | Cost \$1,321.37

Guider IIs

This printer is another version of the Guider II with additional features. In addition to all the specs that its predecessor boasts, the Guider IIs has added features that include: a built-in HD camera for remote monitoring and new air filtration to help reduce unpleasant odors and hazardous emissions. Guider IIs is an industrial-grade 3D printer, providing a massive build volume with the top level of FFF technology, and is designed to provide maximum stability and ruggedness when printing designs.

DSC# 125031 | Vendor# 3D-FFG-GUIDER2S | SRP \$2,629.38 | Cost \$2,096.96

Colorful, Affordable Technology to Inspire Creative Learning and Teaching

Responding to demand from teachers, the new HUE HD Pro was launched at BETT UK 2015 and TCEA Texas 2015 to incorporate the most requested features: a heavier base and full A4 (8.27" x11.7") image capture with a wide angle lens. It also comes bundled with user friendly software to give easy access to all of the camera's functions, including recording sound and video, editing images, automated image capture, and Skype™.

HD Pro Camera

This classroom camera and visualizer is the latest addition to the HUE range of USB cameras. Great for demonstrating science projects, taking snapshots of student work, recording a technique or experiment to replay it for the class, and more.

- The length of the neck makes this camera perfect for viewing a full A4 or US letter-sized page
- The built-in LED lights will help illuminate the subject
- Available for Windows and Mac OS X

DSC# 126926 | Vendor# PC0001
SRP \$105.16 | Cost \$87.33

Animation Studio

This kit contains everything users need to create their own stop motion animation videos. It is perfect for kids as it encourages creativity and imagination. Kit includes:

- Hue HD Camera
- Camera base
- 6ft USB to mini-USB cable
- CD including videos, templates, backdrops, and cut-outs to print
- The HUE Book of Animation

DSC# 126927 | Vendor# HA0001
SRP \$92.01 | Cost \$76.41

Flexible Tablet Stand

This stand has been designed to help educators get the most out of their tablet devices. It can also be used in the home or while traveling to make use of tablets in new and creative ways. It's perfect for teachers who want to use an iPad® or tablet in the classroom, create stop motion animation, and record slow-motion video capture.

- Simple, adjustable clamp which can be attached to a desk
- Incorporates a flexible gooseneck with ball-and-socket joint to provide easy positioning
- The adjustable tablet tray will take any tablet between 7" and 12.5" in size

DSC# 126932 | Vendor# TS0001
SRP \$65.70 | Cost \$54.56

PRIMO

Toy Robot Teaching Kids Ages 3+ Computer Programming

Cubetto is a friendly wooden robot that will teach children the basics of computer programming through adventure and hands-on play.

How it works: Cubetto is made of tactile and hard-wearing wood and is a guide into the world of coding. Children can use a coding language they can touch and manipulate. Each block is an action; combine them to create programs. Place the blocks on a board to tell Cubetto where to go. Hit the blue button and Cubetto executes the program. Expand playtime with world maps, educational story books, and challenges that take children on epic coding adventures.

Cubetto Playset

The coding toy for girls and boys aged 3 and up. Powered by a playful programming language they can touch. Montessori approved, and LOGO Turtle inspired.

Includes:

- (1) Cubetto
- (1) Board
- (16) Blocks
- (1) World Map
- (1) Story Book
