Research Smarter.

With EndNote X9 students can leave behind the tedious work of formatting bibliographies, finding full text, and searching for references. EndNote also gives students greater ease and control in coordinating with others.

What's in it for you?

- [ESD options](#)
- Custom licensing options available for departments, institutions, and more

What's in it for your customers?

- Insert citations and references from an EndNote library into a manuscript and automatically build a bibliography in over 6,000 styles right from Microsoft® Word
- Work from a single reference library with up to 100 people, no matter where they are located or what the organization they are affiliated with
- For one upfront price, users can store and share as many reference documents and files needed
- Instantly see the history of changes made to a shared library with a built-in activity log

What's new in EndNote X9

Smarter teamwork

Users can control how they share their libraries with new sharing permission options, including "read-only" and "read-and-write" access.

Smarter workflow

Ensure bibliographic accuracy with new refreshed styles to update references to key styles such as Chicago, ALA, MLA, and APA.

Smarter insights

They can use Manuscript Matcher to get an informed list of best-fit journals for submitting their papers.

Make Your Own App for Any Task

The FileMaker Platform is a unified tool to help users quickly create and use custom apps that are optimal for their workflow. Users can organize contacts, track inventory, manage events, and much more. The same app works on mobile devices, computers, the web, and in the cloud.

What's in it for you?

- [ESD options](#)
- Competitive margins

What's in it for your customers?

- Quick to get started
- Easy integration
- [Comprehensive learning tools](#)

FileMaker® database software helps schools collect, manage and report on student and administrative data. Frequently used as a complement to large, centralized data sources such as Student Information Systems, FileMaker is highly customizable and lets schools rapidly create and modify solutions in real-time.

Thinking. Comprehension. Communication.

For visual mapping, outlining, writing and making presentations, use Inspiration® 9, the ultimate thinking and learning tool. By using webs, idea maps, mind maps, or other diagrams, students can structure their thinking process.

What's in it for you?

- [ESD options](#)
- Single and volume license margins range from 20-28%
- Site license margins are 15% (except for the first, enrollment price tier, which is 20%)

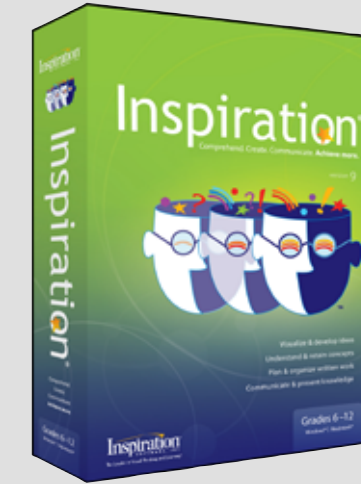

What's in it for your customers?

- Visualize and develop ideas with diagrams and mind maps
- Plan and organize written work with outlines – diagrams transform into outlines and vice versa
- Improve communication and build presentations with the built-in presentation tool

Inspiration 9.2

Inspiration® 9 is the ultimate thinking and learning tool. Brainstorm ideas, structure thoughts and visually communicate concepts to strengthen understanding with the Diagram and Map Views. To take notes, organize information, and structure writing, use the integrated Outline View. With Inspiration's Presentation Manager, transform diagrams, mind maps and outlines into polished presentations that communicate ideas clearly and demonstrate understanding and knowledge.

Selling Software is Back on the Table

The Douglas Stewart Company's ESD Sales Portal is a resource for you to deploy essential ESD to your students in store! Software is a profitable opportunity on college campuses. Now you can bring software sales back to your store with the ESD Sales Portal.

Program details:

- Students can quickly and conveniently buy ESD software in store
- It's easy to customize your portal. You can change the ESD SKUs and pricing as you wish. You can even include your store or school name and logo!
- The portal can be loaded onto any device
- Students can get academic pricing or store promotion pricing and save money
- If applicable, students can use their financial aid when purchasing software
- You can update student pricing to account for everyday pricing or promotional pricing levels
- Minimal overhead
- Marketing support from The Douglas Stewart Company

And more!

Volume Discounts for Schools and Districts

Volume licensing offers you a tremendous opportunity for sales growth, as more software publishers are recognizing the importance of offering volume discounts specifically for educators and students. Licensing programs give you numerous add-on sales options, such as technical support and maintenance.

License Types

Individual License

Most vendors allow an organization to license one software copy per computer, regardless of how many people use it. They may permit one person to install software on both their office and laptop computers with a single license, because it is assumed that the user cannot run both copies simultaneously. Some vendors will also allow a user to install software on their home and business computers with a single license.

Network

There are two types of licenses for applications that run over a network:

- **Concurrent Use:**

Only a certain number of users may run the program at the same time. The software locks out additional users until someone quits the program. Some vendors require customers to install special metering software to buy this kind of license.

- **Site License:**

Any number of users on the same company network can use the program
