KAMSHIELD
WEBCAM COVER

Webcam covers that will give your students peace of mind

In seconds, cybercriminals and voyeurs can secretly take over and control the camera on laptops, desktop computers, and tablets—giving them access to images and video of their most intimate moments.

Offer your students a sense of privacy with these webcam covers. Providing options from discreet, solid colors to playful, vibrant covers, Kamshield Webcam Covers keep the power for decision of camera use in your students' hands.

Simple peel & place application

Durable 3M Adhesive for a secure bond without residue

Patent-pending design avoids lens damage

Colors & designs for the whole family

KAMSHIELD WEBCAM COVERS

Kamshield is an elegantly designed cover that fits securely over the camera lens of a laptop, Chromebook, iPad®, or tablet, and it is the only way to keep the internet connected webcams on the device secure when they are not in use.

Mini Animal Bluetooth® Speakers That Will Rock Their World

Have more fun with these portable and rechargeable speakers.

Your students are going to love these tiny, golf ball and baseball sized speakers. They play music with a robust sound. And guess what? These speakers are cuter than golf balls. They produce kick-butt sound way beyond their little frame. And they're easy to operate.

"These little creatures are powerful mini Bluetooth® speakers that produce clear room-filling sound. Once you're done singing along, enable the selfie feature and snap a pic."
Oprah Winfrey

PANDAMONIUM THE PANDA My Audio Pet

This all-in-one adorable animal shaped speaker has a patented design and includes amazing Bluetooth 5.0 sound quality and a built-in mic. Customers can also use their pet as a selfie remote and can download the ridiculously fun app (Hide & Speak) for even more entertainment. True Wireless Stereo Capability – customers can use 1 or pair 2 for mind-blowing sound.

Let Creativity Fly

Soar into STEAM Education with Drones

Creativity is at the heart of every dream. DJI gives creators of all ages the tools they need to bring their ideas to life. DJI is the global leader in easy-to-fly drones and aerial photography systems. DJI products combine advanced technology with education, making STEAM more relevant and exciting to young people around the world.

Their platforms empower users to capture images that were once out of reach. The flying and camera stabilization systems redefine camera placement and motion. Amazing photos and video, treasured personal memories, and high-end professional imagery are captured every day, in every corner of the world using DJI products.

Osmo Mobile 2 Handheld Smartphone Gimbal

The DJI Osmo Mobile 2 carries over most of the features from the original version and offers several key improvements. It's a bit lighter. The motion ranges are expanded. And run-time is tripled to approximately 15 hours.

The leading provider of high-quality replacements for repaired ink cartridges, cell phones, lamps, and tablets.

Organize any space. These products are carefully designed with the specific needs of educators in mind.

Help your students protect their calculators with these durable cases from Guerrilla Accessories. These zippered cases will ensure their calculators are safe from falls and any other accidents that may happen.

Students can connect their USB-C computers and devices to the most popular connections, all in a compact form factor.

These reusable coffee straws are 100% silicone and safe to use with hot drinks to protect teeth from enamel stains.

KOOV is a comprehensive solution for STEAM education with everything needed to start building robots and make them move with code.

Create the ultimate learning experience for coding with wooden toys.

A tangible coding robot set designed for kids 4-9 to learn basic coding through adventures and hands-on play.

Immersive learning experiences with augmented reality. Users can develop highly realistic 3D content for an augmented reality experience with flashcards.

2019 Spring Recap

Award-winning educational gaming systems for iPad®. Users can create a place where kids explore, learn, create, and interact with digital games in a whole new way.

Turn paper planes into a smartphone-controlled flying machine. Let your students expand their sense of play and experimentation by adding power and mobile controls to familiar paper airplanes.

Keep your students' thoughts colorful and give them high quality notebooks that they'll love.

Provide solutions to make everyday life more convenient for the fast-paced world. Each product is crafted with tough and durable materials.

Scottie Go! is an innovative game to teach programming. It is a combination of cardboard tiles and an app that sets tasks and scans the proposed solutions to set Scottie and other characters in motion.

Help your students show their school spirit with vinyl stickers. This family run business is licensed with 100's of colleges.

Provide professional development to educators working with students from early childhood to adult through STEM tools training. They work with teachers to understand the STEM tool at hand: how to use it, why to use it, and when to use it.

Stretch and sharpen your students' minds. These innovative games make kids think while they make them smile and have fun.

Veative has developed over 550 curriculum-aligned interactive VR modules for STEM, plus 104 second language learning lessons to transform the way students learn. Their platform provides personalized user profiles and actionable analytics.

Create amazing movies. Zu3D gives children and adults the freedom to create magical mini movies quickly and easily.

2019 Winter Recap

Add a new dimension to the classroom with cost-effective and high-quality 3D printers for students and educators.

Colorful, affordable technology to inspire creative learning and teaching. Hue brings images to life and comes with user-friendly software to provide easy access to all the camera's functions.

HyperGear specializes in iPhone® accessories, cell phone accessories, and popular cell phone holders. They take pride in quality and offer your students the ability to look and feel fashionable without hefty price tags.

Kano is a computer anyone can make™. Their mission is to give young people a simple, fun way to make and play with technology, and take control of the world around them.

These cute phone stands provide your students a way to watch movies, make phone calls, or offer a hand whenever they need it.

Increase secondary focus with active seating. These chairs are ideal for children with ADD or ADHD as they provide an outlet for restlessness and extra energy.

MSI is the most trusted name in gaming and eSports. They are committed to providing gamers with innovative gaming rigs.

Perfect for students on the go. Naztech products include compact high-powered chargers, car accessories, iPhone® accessories, and portable power solutions. These accessories are designed for reliability, convenience, and utility.

Encrypt online data and create a secure tunnel between the user's device and the internet. The VPN shields users from prying eyes and from intrusive ads and online threats.

Paladone is the UK's leading company for wholesale gift supply. Paladone has novelty items your students are sure to love.

Teach kids computer programming with Cubetto, a friendly wooden robot. It is made of tactile and hard-wearing wood and is a guide into the world of coding.

Storex offers the perfect storage solutions for those in need of professional and affordable filing for organized offices and classrooms.

Techlogix is a solutions-based organization dedicated to improving the collaboration experience in the classroom.

2018 Fall/Winter Recap

» **THREAD WALLETS** Thread Wallets are stylish wallets and lanyards to match. Thread Wallets provide a stylish way for your students to carry around their IDs and keys.
