Semester-end Papers Made Easy with EndNote 20

The end of the semester can be tough. With deadlines for papers and research projects fast approaching, students could benefit from a smarter research solution. EndNote 20 is a reference management software that eliminates the tedious work of manually collecting, managing, and formatting sources for bibliographies. Plus, enhanced workflows and collaboration tools facilitate efficient coordination between research partners—from anywhere.

What's in it for you?

- [ESD options](#)
- Custom licensing options available for departments and institutions

What's in it for your customers?

New interface design

Students can save even more time writing papers and managing bibliographies with an intuitive user interface.

They can cite while they write

Users can insert in-text citations while simultaneously creating a bibliography in Microsoft® Word.

7,000+ reference styles

Users can build bibliographies in any of the included styles, or create custom styles. Plus, support for new, modern types of references like blogs and online videos.

Improved search

They can find what they're looking for more easily, whether the content is in an online database or already in their EndNote library.

Improved PDF reading and editing

Students and researchers can read and annotate more easily with full-size PDFs. Identify the most important reference information at a glance and quickly copy a formatted reference.

Easier multitasking

Users will be able to quickly switch between groups and references with content tabs.

Share and collaborate

Students and researchers can share selected groups of references, manage team access, and track activity and changes.

EndNote Click Integration

Automatically export references and full-text PDFs into EndNote.

EndNote 20 Student Edition

The student version is the same powerful reference management software at a special price for students. Current proof of enrollment is required at time of purchase by end-user.

Smarter Workflows

- Flexibility matters when so many are studying and researching remotely. EndNote 20 allows users to easily work from anywhere with the ability to sync EndNote 20 and EndNote 20 Web libraries, so all references, attachments, and groups can be accessed, preventing duplicated work.
- Users can install EndNote 20 on up to 3 of their devices.

Smarter Teamwork

- Share a library as write or read-only with up to 400 other users.
- Email selected references with a single click, manage team access and track and manage activity to keep projects on schedule.

Smarter Insights

- Track and easily find favorite references with new rating and status tools.
- Work more efficiently with a new expanded layout options.

Give Students Safer 1:1 Learning

GoGuardian has changed the way K-12 schools keep their students safe online and enhance learning. GoGuardian enables teachers and administrators to maximize the learning potential of the internet, while protecting their students with real-time AI filtering and monitoring, real-world learning customization, and real-time risk detection for self-harm and suicide. Today, over 15 million students are safely exploring more of the internet with the industry’s most advanced device management solution.

What’s in it for you?

- [Deal Registration Program](#)
- Resellers are provided access to the GoGuardian regional sales team to provide demos or help customers get set up with a free trial
- Easily bundled and sold with 1:1 device initiative

What’s in it for your customers?

“GoGuardian allowed us to open up the internet for our students so they may explore it, learn from it, and most importantly, build smart and practical habits when it comes to using it.”

– Rade Obradovic, 5th Grade Teacher

- Inspires curiosity in the classroom
- Protects students from harmful or distracting content
- Supports student mental health

Personalized, Job-Embedded, Practical PD. Anytime, Anywhere.

Educator Training for Transforming Classrooms

MobileMind, a Google Certified PD Partner, offers a cloud-based, asynchronous learning platform that lets teachers integrate technology into the classroom to improve student outcomes. MobileMind is the only platform that allows districts to consolidate all their PD initiatives from Google and other technologies. This professional learning hub delivers anytime, anywhere access to personalized micro-courses, activity-based learning, digital badging, and reporting.

What's in it for you?

- Easily bundled and sold with Google EDU products

What's in it for your customers?

- Online professional development certified by Google
- Easy implementation with Chrome Extension
- Educators get human feedback and hand-on experience while learning
- Courses are micro-efficient and gamified to make learning fun
- District leaders can see training progress with at-a-glance reporting

Personalized Learning	Micro-Courses	Badging & Gamification
Reporting & Tracking	Human & Automated Feedback	Hands-On Challenges
Mobile App	PD Content Sharing Across Districts	PD Scheduling Solution

MobileMind is the modern professional learning hub

In just a few steps, educators will be learning how to transform classrooms using G Suite and other tools, while leaders will have reporting visibility in order to take actionable steps toward improving teaching and learning in their schools.

Video and Image Creation and Editing Tools Educators Love

As educational institutions continue to implement better support for hybrid, blended, and asynchronous online courses, the ability to easily create effective visuals and videos is as critical as ever. TechSmith products Camtasia and Snagit make it simple to humanize online learning, communicate more efficiently, and create more effective training.

What's in it for you?

- Competitive margins
- Repeat customers thanks to maintenance agreements
- Access to Customer Look Up Tool to simplify managing renewals and extensions
- Online deal registration to protect larger projects
- NFR license keys

What's in it for your customers?

- Powerful yet easy screenshot capture and annotation
- High quality screen recording with robust editing
- Turn PPTs into videos quickly
- Enhance videos with quizzing and interactivity

Snagit is the fastest way to create effective visual content to communicate clearly with students. Capture screenshots, mark them up with rich annotations, and share easily.

Camtasia is the easiest way to create and share videos for training or teaching online and blended courses. Record the screen and web camera, edit with robust transitions and motion graphics, add in video quizzes, interactivity, and captions, then share with ease.

Software Options:

Individual, volume, and site license options available for Snagit, Camtasia, or a discounted bundle of both.

Selling Software is Back on the Table

The Douglas Stewart Company's ESD Sales Portal is a resource for you to deploy essential ESD to your students! Software is a profitable opportunity on college campuses. Now you can bring software sales back to your store with the ESD Sales Portal.

Program details:

- Students can quickly and conveniently buy ESD software in store.
- It's easy to customize your portal. You can change the ESD SKUs and pricing as you wish. You can even include your store or school name and logo!
- The portal can be loaded onto any device.
- Students can get academic pricing or store promotion pricing and save money.
- If applicable, students can use their financial aid when purchasing software.
- You can update student pricing to account for everyday pricing or promotional pricing levels.
- Minimal overhead.
- Marketing support from The Douglas Stewart Company.

And more!

Volume Discounts for Schools and Districts

Volume licensing offers you a tremendous opportunity for sales growth, as more software publishers are recognizing the importance of offering volume discounts specifically for educators and students. Licensing programs give you numerous add-on sales options, such as technical support and maintenance.

License Types

Individual License

Most vendors allow an organization to license one software copy per computer, regardless of how many people use it. They may permit one person to install software on both their office and laptop computers with a single license, because it is assumed that the user cannot run both copies simultaneously. Some vendors will also allow a user to install software on their home and business computers with a single license.

Network

There are two types of licenses for applications that run over a network:

- **Concurrent Use:**

Only a certain number of users may run the program at the same time. The software locks out additional users until someone quits the program. Some vendors require customers to install special metering software to buy this kind of license.

- **Site License:**

Any number of users on the same company network can use the program.
