Turn Your Words Into Action

With the Livescribe 3 smartpen and the Livescribe+ mobile app, users can simply write on paper and watch it instantly appear on their tablet or smartphone. Notes become more useful when they are tagged, organized, searchable and converted to text. Users can create tasks, reminders, calendar events, new contacts and more, right from their notes. They can use the mic on a tablet or smartphone to add recorded audio that's synced with their handwriting so they can be sure they'll never miss a word. They can quickly share notes and ideas with friends and colleagues. Get more done in less time—all with just a few quick taps of a finger.

GENERATION MOBILE

CONNECTING WITH STUDENTS THROUGH SMS MESSAGING

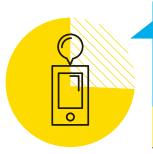

In the last few years, mobile phones have transitioned into a requisite tool for everyday survival, especially amongst college students. As many businesses already know, creating mobile-friendly emails and websites is crucial for advertising to this demographic. SMS messaging is a frontrunner in mobile advertising and yet underutilized. Not only is it the preferred method of communication for students but it is also an extremely effective marketing tactic. See for yourself:

SMS COUPONS ARE **10 TIMES** MORE LIKELY TO BE REDEEMED AND SHARED THAN MAIL OR NEWSPAPER COUPONS.

22% OF MOBILE COUPONS ARE SHARED WITH AT LEAST ONE FRIEND.

Gathering mobile information may seem tricky but there are simple ways to incorporate it into everyday business practices. Add opt-in fields to your company's website, offer unique incentives or services as a sign-up bonus, or simply offer to gather student info during the in-store checkout process. When creating your SMS text ads, always be sure to include a call to action in your campaigns that creates a sense of urgency to drive that in store traffic. Finally, remember to send messages during high traffic times, use keywords and keep messages short. Retail businesses that employ text marketing use it as both an inexpensive yet highly effective means of marketing to customers. College stores can use this tactic as a vital way to stay connected and stay relevant with their students in today's exceptionally mobile world!

Creating a "limited time" text message such as "get 20% off your next visit claim within the next 24 hours" will give students a sense of urgency. Including a deadline causes students to feel like they should act now and not miss out on special offers.
