## Assembly / Setup

### InTouch 20 tablet locker security

*Spectrum recommends using the two attachment methods shown below to maximize the locker security.*

#### A. Bottom Panel Mounting Holes

*(3) 5/16" holes are provided on the bottom panel to attach the locker to a worksurface or floor for increased security. Fasteners are not included.*

1. Set the locker into position. (If attaching to a worksurface, be sure it is stable and sturdy enough to fully support the unit.)
2. Choose fasteners appropriate to the surface you will be attaching to. The (3) mounting holes in the bottom panel are 5/16" dia. **Figure 1A.**
3. Mark the (3) hole locations through bottom panel.
4. At the marked locations, drill holes in the worksurface or floor appropriate to the chosen fastener type and size.
5. Install fasteners and tighten securely.

#### B. Security Brackets

*The included security brackets can be installed to attach the locker to a secure worksurface or floor for increased security. Fasteners are not included.*

1. Choose fasteners appropriate to the surface you will be attaching to. Each security bracket has a 3/8" diameter mounting hole.
2. Place each security bracket into one of the lower ventilation slots on each side of the locker as shown in **Figure 1B**. The bracket can be located anywhere along these slots.
3. Mark the bracket hole locations on the worksurface or floor.
4. At the marked locations, drill pilot holes appropriate to the chosen fastener type and size.
5. Install fasteners and tighten securely.

## Routing power cords to tablets

The wiring diagram below shows typical cord management for tablet power cords.

1. With the 20-outlet power unit unplugged, plug up to 20 tablet chargers into the locker power unit. **Figure 2A.**
2. Route the charge cords through the divider panel cutouts.
3. Using the cord wraps above each tablet storage slot, wrap excess cord while leaving enough cord length to drop down to each tablet. **Figure 2B.**
4. Excess cords can be bundled with zip ties and stored under the bottom shelf if necessary.

## Route USB hub cords to tablets (Hubs not included)

The wiring diagram below shows typical cord management when (4) USB hubs are used. USB hubs are not included with the Secure Laptop Locker, but available as an option. (See p.5)

1. Connect 3 USB cords to the "feeder hub". **Figure 3.**
2. Connect the other end of each cord to a hub on the divider panel. (Up to 20 USB cords can be connected to the hubs).
3. Route the cords through the divider panel cutouts.
4. Excess cords can be bundled with the included zip ties and stored under the bottom shelf.

**Note:** The iPad® has a single cord for charging and syncing. This cord must be moved from the power plug to the sync hub for syncing. Many tablet devices use this same type of configuration.

Some tablets have a separate power cord and separate USB cord to accomplish both syncing and charging functions. Please consult the owners manual of your specific device for further information.

Warranty is void if product is not used for its intended purpose or subjected to an unusual application, multiple-shift use, alteration, accident, abuse or abnormal wear and tear. Representations of colors on-line and in printed materials are meant to be a close reference to the actual colors but not an exact match. Slight variations in color and texture of wood stains, powder coating, laminates, fabrics and other materials are normal in different manufacturing lots; as such these variations are not considered defects.

**DESIGNED FOR INDOOR USE ONLY** – Unless specifically stated in the product specifications, Spectrum's products have been designed and constructed for indoor use only. Moving or using outdoors, or on excessively rough surfaces, may cause damage to the products and will void the warranty. If an outdoor application is desired please contact us to discuss potential custom design solutions.

**The warranty, as stated above, supersedes any previous warranties and is effective as of 9/1/2010**
