EXPERIENCE FREEDOM »

BRING SOUND TO LIFE

Aircom's patented airflow technology uses an air-filled hollow tube to increase air space and sound development which produces more body and delivers a "live" listening experience that your students can feel.

Aircom A3 Stereo Airflow Earbuds

Proper fit and seal is essential to maintain optimal sound and with a small, medium, or large earbud ring, the A3 fits, so whether users are dancing, running, or lifting, it stays in ear and they will experience "live" sound that they can feel. The A3 has the clic-it system with magnetic end-caps that click together and can be worn around the neck so your students are ready for whatever's next.

Color	DSC#	Vendor#	SRP
White	106732	A3 White	$51.99
Yellow	106733	A3 Yellow	$51.99
Black	106737	A3 Black	$51.99

Aircom A1 Stereo Airflow Earbuds

Micro earbuds paired with the airflow technology delivers BIG sound. Even though the earbuds are micro in size, there is no sacrifice in sound quality. Beyond sound, the gun metal finish of the earbuds highlights the clean and sleek design.

Color	DSC#	Vendor#	SRP
Black	106735	A1 Black	$32.49
White	106736	A1 White	$32.49

Aircom A3b Wireless Airflow Headphone

Your students can be the first to experience Aircom's Airflow audio technology—wirelessly. Now they can feel their music like they are front row at a concert and take in every detail of sound as the artist intended. Do all this while moving about without being tethered to a device.

littleBits™

Inspire Young Minds with littleBits

littleBits encourages students to play and experiment through active experiences, enabling them to construct knowledge that can be applied to real-life situations. They make a platform of easy-to-use electronic building blocks empowering everyone to create inventions, large and small.
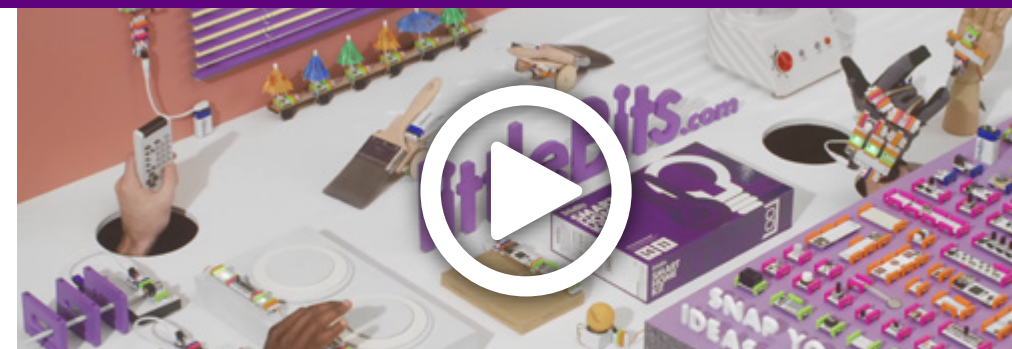

SEE HOW IT WORKS »

littleBits STEAM Student Set

This littleBits education kit is the easiest way to integrate powerful STEM/STEAM learning into the classroom. It includes everything needed to engage up to 4 students and develop their 21st century skills—including 16+ hours of lessons!

DSC# 107438 | Vendor# 680-0008 | SRP $299.95

littleBits Pro Library with Storage

This giant collection was built so inventors' imaginations can go wild as they build the most advanced littleBits inventions. It includes complex Bits that bring programming, internet, music, and logic into the mix. Get the creative juices flowing in your school, library, or makerspace!

POLAR3D The Next Generation of 3D Printing

The Polar 3D printer is a revolutionary version of 3D printing for the modern classroom. The Polar3D printer is the world's first 3D printer based on polar coordinates. This radical design innovation enables an open view and a 360° range-of-motion build platform delivers four times the build volume.

Polar 3D Printer Starter Pack

This bundle includes 1 printer, 6 rolls of 1Kg filament, and an extended warranty. Sleek, quiet, Wi-Fi enabled, and with an open-view that allows students to watch their objects being created. It's not only a radical improvement in 3D desktop printing, but also fun!

- The time-lapse camera will leave your students mesmerized as they watch their 3D creation come to life
- The free Polar Cloud allows any Polar 3D owner to load files, print, and view the process from anywhere with a web browser
- The printer is lightweight and durable and can be taken anywhere
- Its reliability and ease of use are perfect for the classroom or makerspace lab

DSC# 108584 | Vendor# 394209 | SRP $1,515.86

LICENSE

Polar 3D Middle School STEAMtrax Site License

STEAMtrax is an innovative new curriculum that integrates engineering and 3D printing technology with core academic knowledge in science, math, language arts, social studies, and art. Each lesson imbeds 3D design, printing, and scanning technology as an integral part of the STEAMtrax Engineering Process.

- Problem-based, thematic storylines make learning relevant and fun
- Hands-on, constructivist learning stations to clarify science concepts
- Integration of 3D design, printing, and scanning built into each module
- Engineering Project Design Process encourages critical thinking
- Variety of formative and summative assessments, including rubrics
- Flexible modules easily align to NGSS or state standards
- Available in digital or print platform
- Hands-on science kits available for each module

Everything Needed to Write the Next Great Novel or Screenplay!
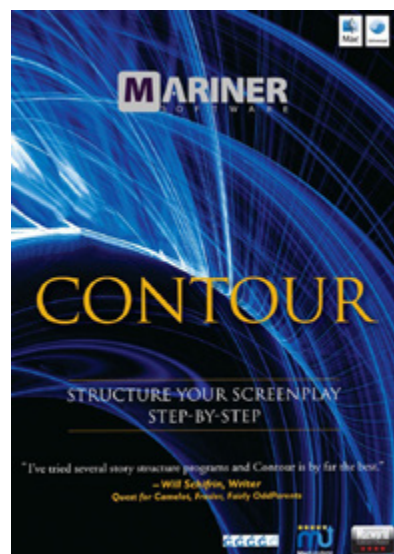

Mariner Contour

Contour is a proven story development system that streamlines the process of taking movie ideas from first glimmer to full outline. Learn how to use the same character-based structure that all blockbuster movies use to create solid stories that hold together. With its intuitive, fill-in-the-blanks approach, drill down on a story, flesh out a main character, and codify their motivations and behaviors.

Mariner Persona

Persona is based on the idea that when characters are categorized into archetypes, the user can know their background, which shows their motivations, and then predict their behavior. Persona has 32 archetypal themes, broken down into heroes, heroines, villains and villainesses, and contains details of their personality traits, qualities, flaws, background, occupations and interactions with other personalities. Create Smart Groups based on attributes like tags, gender, body type, occupation, hobbies, and more.

2016 Summer/Fall Recap

LaCie combines design and technology to create storage solutions that are both beautiful and performance-driven. Their products provide a practical resolution to hardware challenges students face with unmatched high technical performance and long-term reliability.

HUK TV mount is a two bracket fixed mounting system designed with ease of use, limited space, and portability in mind. It is perfect for any small space such as dorm rooms, garages, apartments, or simply anyplace someone would enjoy watching TV.

Students can join the movement and help hydrate humanity with Not Vodka water bottles. For every bottle bought, one dollar is donated to help end the global water crisis. This double wall, vacuum insulated, and copperlined bottle will keep drinks cold for 30+ hours. BPA and BPS free and non-toxic.

Atomi leads the way with in-home charging solutions perfect for on-the-go students and anyone with devices that need a quick, full power boost. Above all, Atomi makes it easy to power up tablets, smartphones and more with speed and ease.

Acme Made offers contemporary, functional and just plain beautiful case solutions. Students can protect their gear while staying fashion-forward with their sleek style options.

Seagate is the global leader in data storage solutions, developing amazing products that enable students to create, share and preserve their most critical memories and backup their data.

Secure Charging Carts and Cabinets with unique adjustable device divider panels with easy-to-use cycle timers and 3-point locking doors. They fit ChromeBooks, iPads, tablets and laptops, all in one cart.

2017 Winter/Spring Recap

MEEM is the only product of its kind in existence: A phone charger and automatic back-up device all in one cable. Every time your student charges their phone, MEEM automatically backs up the personal data held on it to the cable itself; making MEEM a simple solution that maintains the safety and security of your users' information while fitting into their daily routine.

Consumer Priority Service offers extended warranty coverage for virtually all high ticket consumer purchases ranging from high-end consumer electronics to computers to major appliances and more.
