Vision™

Classroom Management Software

The easiest and most effective way to teach with technology, Vision is the popular classroom management software proven to improve student performance. Whether your students use the iPad or PCs, Vision provides on-screen demonstrations and teaching tools that ignite interest, focus attention and improve learning outcomes.

Want the best? Vision Pro combines powerful classroom management features with tools for blended learning and flipped classrooms that improve educational results in today's digital learning environments.

Improve learning outcomes

In an independent study, Vision was proven to improve student performance by as much as a full grade step. Students grasp concepts more quickly, less re-teaching is required and failure rates decrease.

Present lessons dynamically

Demonstrate directly on student computers or tablets with high-speed screen sharing technology that engages student attention, increases comprehension and improves retention of key concepts.

Focus student attention

Eliminate distractions and put the focus on learning with a robust set of tools that help teachers supervise student computer use, guide web browsing and keep students on task.

Differentiate instruction

Monitor student progress and provide discreet assistance with tools like chat and remote control that let teachers address different learning levels and adjust instruction based on individual needs.

Increase classroom efficiency

Make the most of valuable instructional time with tools that start up student computers, launch applications, score tests automatically and keep the whole class learning together.

Flip the classroom

Create web-based assessments for use in class or after school with the new Vision Pro Learning Center - perfect for blended learning and flipped classrooms.

Support 1:1 and BYOD programs

With demonstration, annotation and assessment features designed for student web-enabled smart devices - iPad, Android, Chromebook, and more - Vision Pro helps your 1:1 and BYOD programs succeed.

BENEFITS

- Engage students with dynamic screen sharing demonstrations
- Supervise student computer use, monitor progress and activities
- Showcase student work to the class
- Discreetly assist students with remote control and chat tools
- Guide students to lesson related web sites and block out the rest
- Save class time by launching applications for students
- Eliminate distractions by blanking screens or kiosk applications
- Distribute files and collect documents
- Wake up or shut down student computers remotely
- Demo to any iPad, Android, or web-based student device

ENHANCED FEATURES IN VISION PRO

- Administer tests in or out of class, perfect for flipped classrooms
- Remotely login student computers
- Block distracting websites with ultimate web control
- Support any student device to enhance blended learning

Features for Vision and Vision Pro

 **Demo (PC & Smart Devices)**
Give every student a front-row seat, present lessons directly on student computers or smart devices.

 **Showcase Student**
Build confidence when you let students share their work on every computer screen in class.

 **Pointer (PC & Smart Devices)**
Annotate lessons in any application with more than 20 shapes and highlighters.

 **Start Application**
Save time by opening the correct application on every student computer simultaneously.

 **Kiosk Applications**
Limit students computer use to programs you open for them. Students can't exit - ideal during tests.

 **Supervise the class**
Supervise the activities of the students from your PC or iPad. See a thumbnail view of the entire class.

 **Blank Screen**
Focus student attention at the beginning of class or while giving directions by blanking computer screens.

 **Lock Web**
Turn student web browsing on or off for one student or the whole class from the teacher's computer.

 **Resource Lists**
Easily create lists of teacher-approved web sites to guide student Internet use - while blocking the rest.

 **Live View**
See any student screen in high-quality, larger screen in real time in a new window.

 **Remote Control**
Take command of any classroom computer and remotely assist students for personalized instruction.

 **Shut down and wake-up**
Shut down, start or restart any or all classroom computers from the teacher's station.

ADDITIONAL CAPABILITIES INCLUDED WITH VISION PRO

PRO **Class Wide Remote Login**
In single sign-in environments, get all your computers logged in with a click, from your desk, so they'll be ready as soon as students arrive

PRO **Learning Center**
Create and administer assessments for student use in class or at home - perfect for flipped classrooms.

PRO **Vision Mobile**
Unchain yourself from your desk and manage your classroom from your iPad

PRO **Block Lists**
Use block lists to restrict certain sites, while still allowing students access to the Internet

System Requirements Available Online: www.netop.com/vision/tech-specs

"Vision is a tool that makes it possible to take on the role of a coach in the classroom. I can assist those students who need help, focus the attention of the students on my instructions and show individual work to the whole class."

Demo

Share the teacher's screen with an individual student, a group or the entire class.

Resource Lists

Keep students focused by guiding students to teacher-approved websites.

Live View

See any student screen in high-quality, larger screen in real time in a window.

"Classroom management software has been the best tool provided to me in my teaching career. I spent more time teaching and less time disciplining. I am able to use resources that I may previously have shied away from."

JENNIFER WANDZEL - CLARENCEVILL HIGH SCHOOL, WI

"As I used the Vision software to demonstrate techniques in my classroom, I was amazed at how engaged my students became with the content... My students were able to master the material more quickly and the pace of instruction increased because I was spending less time repeating my instructional delivery."

SARAH SULLENBERGER - DERRY AREA MIDDLE SCHOOL, PA

Introducing the Vision Pro Learning Center

Vision Pro just got better, thanks to the new Learning Center!

The Vision Pro Learning Center is a cloud-based tool that supports your blended learning initiatives. Teachers can create assessments anywhere, run quizzes during class time, or assign tests outside of the classroom - perfect for flipped classrooms. Provides automatic scoring, and compiles results data in easy-to-use reports. Easily accessible from the Vision Pro navigation ribbon, with no installation required.
