Netop Solutions for Education

About Netop:

Netop develops market leading software solutions that **connect people** with **computers** and **smart devices**, using remote access, screen-sharing and video chat technologies. Millions of users count on Netop to make **100 million** swift, secure and seamless connections every day. Used by half of the Fortune 100, Netop's customer service solutions, including secure remote access and live chat, help businesses provide better customer service, reduce support costs and meet security and compliance standards. In education, Netop software connects more than **6 million teachers and students**, helping schools **transform education** and **improve learning outcomes** with tools that make teaching with technology easier and more effective. Headquartered in Denmark, Netop has offices in the United States, China, Romania and Switzerland, and customers in **105 countries**. The company is privately held.

Philosophy:

Netop believes that teaching with technology should be **easy** and **effective**. This philosophy has guided the development of our software for the past 15 years, and has helped to make our Vision classroom management software the **#1** choice of teachers around the world. Our software helps teachers **engage** students, **ignite** their interest, **focus** attention and **guide** learning, and has been proven to **improve learning outcomes.**

From traditional PC-based computer labs to **1:1** tablet programs, **flipped** classrooms and **blended** learning, we've evolved with educators as they face new challenges and embrace the **latest technology** in the classroom. Netop is committed to delivering solutions for teaching effectively with **all platforms** and devices adopted by schools. We have a major investment of new capital and have tripled our development team to enable us to deliver on our vision of helping schools **transform education**.
