

Camtasia and Snagit

The best screen capture and video tools for online instruction

Camtasia

Create video lessons for quality online courses

Keep a human element in flipped and blended learning. Include interactive quiz questions - true/false, multiple choice, or open-ended - to measure student comprehension

Easily record your screen and PowerPoints

Include webcam, animation, music, hotspots, and green screen

Bring in educational content from YouTube, camera, or smartphone

Add captions for ADA accessibility

Snagit

Capture your screen, create images, and more

Create dynamic visuals for instruction, plus give personalized feedback on assignments. Explain complex concepts with crystal-clear images, and record video lessons with webcam.

Grab screenshots, even scrolling pages

Enhance with words, arrows, blur, shapes, and highlight

Record your screen, including webcam, and share with students

Grab and replace text with OCR (Optical Character Recognition)

Top reasons educators use TechSmith:

Online and distance learning

Flipped/inverted learning

Share knowledge on complex topics

Camtasia and Snagit are great for creating videos and images for:

Reaching students for mobile learning

Crucial study and review material

Hands-on skills in nursing, applied sciences, and more

"Having something that feels like it's a live lecture that they can access is really valuable. I get a lot of comments from students that they feel like they're in class."

-Jeff Anderson, Associate Professor and Director of Clinical Education, Boise State University
