

PaintShop® Pro **2020**

Developed by like-minded users and trusted by professional photographers

PaintShopPro® 2020 delivers a powerful, all-in-one photo editing and graphic design experience so you can spend more time doing what you love. With remarkable intelligent new features and impressive performance and speed improvements, this is a photo editor you'll be proud to call your own.

Why choose PaintShop Pro 2020?

PaintShop® Pro 2020 is your trusted professional photo editing and graphic design software that delivers:

Pro-level photo editing

From professional photographers to passionate enthusiasts, PaintShop Pro provides a user-centric, photo editing and design experience. Edit photos, create multi-layered designs, work with RAW and HDR images, organize easily and share everywhere!

Multiple workspaces

Photography Workspace – Sleek and simple interface with a focus on one-click fixes makes photo editing a breeze.

Essentials Workspace – Do a little more with advanced editing and design tools.

Complete Workspace – Access the full power of PaintShop Pro with professional level photo editing, designing and organizing features.

Creative design power

Unleash more possibilities with painting and drawing tools including brushes, color palettes, gradients and textures. Access a wide range of built-in templates to create collages, greeting cards, social media images, web banners, brochures and more. Turn photos into art with intelligent instant effects and filters.

Effortless photo saving, organizing and sharing

PaintShop Pro values not just your creativity, but also the practical aspects of saving, transferring, organizing and sharing your assets.

User inspired features

Powerful Adjustment Tools – Edit, crop, resize, remove noise, sharpen, enhance colors, use curves and levels to make your photos stand out.

Precise Retouching – Touch up your favorite photos with high precision selection or cloning tools, photo restoration and flaw removal effects.

Artistic Photo Compositions – Use multiple layers and create masks to make incredible photos and graphic design projects. Create stunning HDR photos by combining multiple exposures.

Complete RAW Control – PaintShop Pro's RAW lab arms you with powerful RAW image editing capabilities, including before and after preview options.

Who's it for?

Photo Enthusiasts

From hobbyists to photo enthusiasts, every photographer needs tools that help them achieve their creative vision. PaintShop Pro 2020 provides everything photographers need to edit, make quick adjustments and manage an entire photo collection in one product.

Graphic Designers and Creative Consumers

With layers, vector tools, and painting and drawing tools, PaintShop Pro 2020 is an ideal solution at home or at work. Graphic designers use PaintShop Pro to make a variety of compositions, including posters, brochures, web graphics and more. Creative consumers produce content to share with friends and family. Both groups will love PaintShop Pro's new color palettes, brushes, gradients, patterns and picture tubes.

Businesses

For businesses of all sizes, PaintShop Pro 2020 is enormously valuable at work for everything from in-house graphic designing and creating stunning slideshows, to using screenshot and annotation tools to communicate with clarity. Volume licensing, network deployability and quantity discounts make PaintShop Pro 2020 an excellent choice for business and education settings.

What's new?

Accelerated tools and power for faster results

It just keeps getting better! Put your favorite tools to the test and experience remarkable performance and speed improvements designed to enhance your workflow and efficiency.

- Save time with a faster and easier to use Text tool
- Enjoy improvements based on direct user feedback
- Turn photos into art in no time with faster Pic-to-Painting
- Take advantage of new camera support

Adaptable and intuitive for all types of workflows

Just like every photo is unique, so are you. And so is the way you like to work. We're committed to focusing on removing the obstacles that stand in the way of your success.

- Edit seamlessly and duplicate settings between Layer Styles
- Get the best results with improved Depth of Field precision
- Work how you want to with support for the latest stylus and graphics tablets

Progressive and innovative with cutting-edge technology

Turning your vision into reality has never been easier with the latest technology engineered into PaintShop Pro. High-powered functions and tools make creating something truly original, achievable.

- Work on a touch device in the new Photography Workspace
- Retouch with ease using the new SmartClone tool
- Achieve extreme precision with the new Refine Brush
- Design with new gradients, picture tubes, brushes, color palettes, and patterns

Classic features

Layers and masks

Use multiple, non-destructive layers when editing images to create photo composites with ease. Create masks to hide or show parts of a layer, fade between layers, and to create special effects with precision.

Drawing and painting tools

Use brushes, vector tools, fills, the color changer and gradients to explore a wide range of creative projects.

Text tools

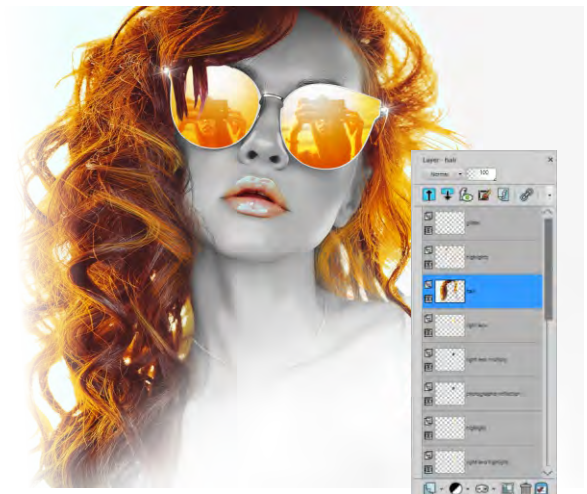

Add text to any print, web or photo project with a complete set of typography tools.

Scripts

Scripts bring the power of automation to photo editing. Record a series of commands as a script that you can playback at any time.

Batch processing

Save time and increase productivity by quickly applying adjustments to multiple photos at once.
