**ESET** ENJOY SAFER TECHNOLOGY®
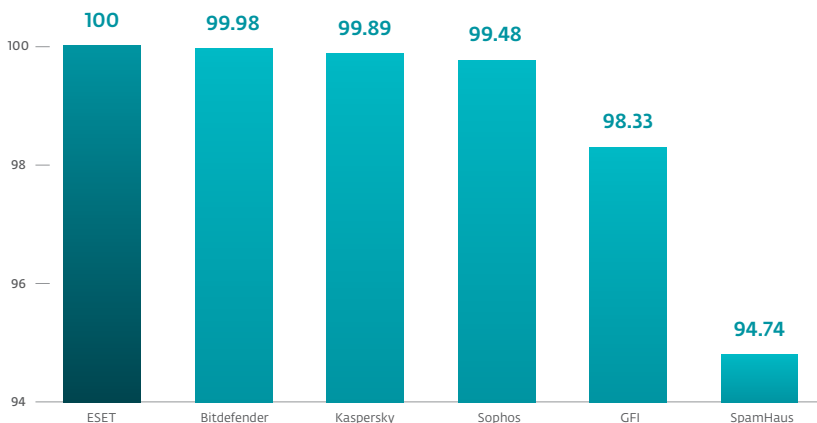

THE *STRENGTH* OF MULTILAYERED PROTECTION

ESET's multilayered technology allows us to detect and react to threats faster, helping both consumer and business customers benefit from stronger and more effective protection against agent-less malware, advanced threats, botnets, exploits and other emerging threats.

Malware and Ransomware detection (total accuracy %)

Bar chart (values): ESET 100, Kaspersky 100, Norton 100, Bitdefender 97, AVG 97, Sophos 96, Avast 96, Microsoft 94, Trend Micro 89

> SE Labs compared the effectiveness of anti-malware products against targeted attacks using well-established techniques and public web-based threats that were live on the internet at the time of the test. The results indicate how effective the products were at detecting and/or protecting against those threats in real time.

Anti-Spam (Final Score)

Bar chart (values): ESET 100, Bitdefender 99.98, Kaspersky 99.89, Sophos 99.48, GFI 98.33, SpamHaus 94.74

> Virus Bulletin, a leading independent testing authority, tested anti-spam products by sending thousands of emails through each system in real time. The VBSpam Final Score measures how successful the anti-spam product was at catching spam while simultaneously avoiding false positives.

March 2017, Final Score

False alarms

Chart data (number of false alarms):
- ESET: 0
- McAfee: 2
- Bitdefender: 5
- Vipre: 5
- Microsoft: 6
- Avast: 9
- AVG: 9
- Kaspersky: 10
- Trend Micro: 30
- Symantec: 30

" Even one false positive can cause serious problems. If an antivirus solution is configured to immediately delete or quarantine infected files, a false positive in an essential file can render the operating system or crucial applications unusable.

Performance Test (Impact Score, lower is better)

Chart data (Impact Score):
- ESET: 2.8
- Vipre: 3.6
- Bitdefender: 4.2
- McAfee: 7.3
- Kaspersky: 8.1
- Symantec: 8.7
- Avast: 8.9
- AVG: 8.9
- Trend Micro: 16.6
- Microsoft: 30.4

" Anti-malware software impacts file management operations such as create, open, copy, and remove files. By replacing a heavier solution with a lighter one, the user will experience faster operation and lower impact on their system.
