GoGuardian®

Safer students. Better learning.

Smart technology needs smart management.

GoGuardian has changed the way K–12 schools keep their students safe online and enhance learning. Too many schools find themselves locking down too much of the internet in an effort to keep out harmful content, cyberbullying, and distractions.

GoGuardian enables teachers and administrators to maximize the learning potential of the internet while protecting their students with real-time AI filtering and monitoring, real-world learning customization, and real-time risk detection for self-harm and suicide.

That's why more than 10,000 schools across the U.S. choose GoGuardian. Today, over five million students are safely exploring more of the internet with the industry's most advanced device management solution.

"Our customers love what we do and who we do it for"

GoGuardian is an outstanding product that plays a big role in maintaining the safety of our students.

Misty Simpson
Technology Coordinator
Booneville School District

It's a huge positive all the way around. Grades have increased and student failure rates are dropping. We are so impressed.

Scott Axt
Assistant Principal
North West Public School

GoGuardian allowed us to open up the Internet for our students so they may explore it, learn from it, and most importantly, build smart and practical habits when it comes to using it.

Rade Obradovic
5th Grade Teacher
Duval County Public Schools

GoGuardian offers several tech solutions for K-12

From device assignment and repair tracking, to the only context-aware web filtering and classroom management solutions on the market, the power of GoGuardian's tools is visible within minutes.

Available on Chrome | Windows

Google for Education
Partner

GoGuardian Admin™

Smart Filtering and monitoring that sees past the URL, understanding the context of the page to help keep students safe.

- Advanced YouTube filter
- Continuous browser scanning
- Filters at the DOM level
- Customizable Smart Rules
- Filtering simulator
- On or off campus rules

Smart Filtering

Smart Filtering helps you create safe and effective learning environments. At GoGuardian we're passionate about keeping students safe and on task. Our award-winning team of engineers and data scientists have built the next-generation of filtering, and the results are astounding. Only GoGuardian technology can help determine the meaning and intent of student browsing activity, allowing school staff to make more effective decisions about what to allow, block, or notify.

GoGuardian Teacher™

Advanced classroom management platform that promotes differentiated learning while keeping the class on task.

- Teachers can focus more on helping their students instead of policing their devices
- Teachers can see what students are working on and assist them in real time
- Teachers can create custom study and testing environments to maximize learning time and minimize distractions

GoGuardian Fleet™

Deploy hundreds—or even thousands—of Chrome devices across your school or district.

- Google Admin Console Sync
- Bulk editing
- Import existing data
- Easy repair management

GoGuardian Beacon™

Suicide and self-harm prevention tool designed for and in collaboration with school mental health experts to support your school's suicide prevention program.

- Surfaces students in need
- Supports activities in the chrome browser
- Notifies parents
- Can support students directly
- Created in collaboration with industry experts

GoGuardian Director™

Easily see which education apps and other digital learning tools are being used across your entire district.

- Easy-to-use dashboard
- "High-altitude" overview
- Detailed trend views
- Identify training needs
- Software validation
- Maximize technology investment
