Soak up the Sun

Join Urbanista in their new era of self-charging solar-powered headphones, earbuds, and speakers.

Malibu Solar Bluetooth® Speaker

Enjoy high-quality sound without fear of dead batteries with the world's first solar charging wireless speaker with integrated Powerfoyle solar cell technology. Even with low lighting conditions, this powerful speaker comes with a full day battery reserve.

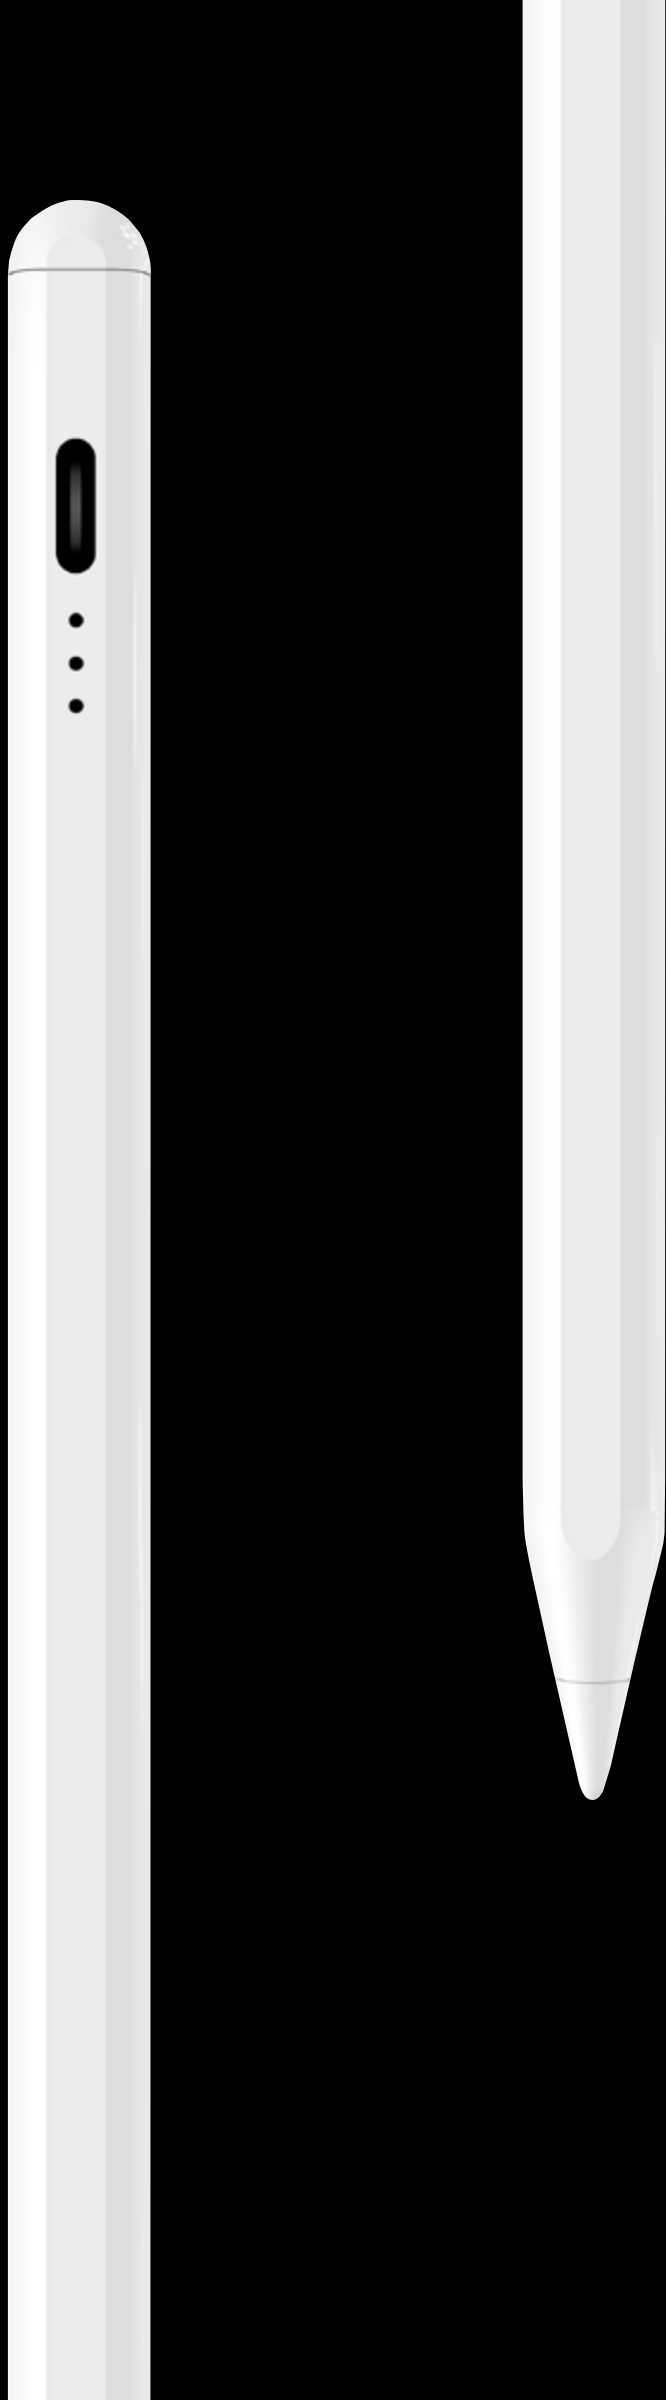

Los Angeles Solar Powered Noise Cancelling Headphones

Meet the world's first self-charging wireless headphones powered by Powerfoyle solar cell material. These headphones convert all light, indoor and outdoor, into energy, providing users with a virtually nonstop audio experience. To focus in, students can turn on Active Noise Cancelling, but to hear surrounding sounds, Ambient Sound Mode is also an option.

Phoenix Solar Powered Headphones

With a case integrated with Powerfoyle solar cell material, the Phoenix Solar Powered Headphones continuously charge when exposed to all forms of light. The Phoenix battery reserve offers 32 hours of playtime even in low-light conditions, so students never have to give up the wireless experience.

In 2023, Apple announced the Restore Fund, which aims to create natural solutions to the issue of climate change

Enjoy a smooth, pen-like experience on iPad devices

Adonit styluses are perfect for students who want the convenience of technology without sacrificing the precision of paper notes. Compatibility with most iPads and iPad Minis, tilt sensitivity, and fast charging are just a few of the many features Adonit offers to create an easy and more natural writing experience.

IDEAL OF SWEDEN

MagSafe Cases for Every Vibe

MagSafe cases are the latest and greatest way for students to personalize their devices but keep them functional. With these cases, students can use MagSafe-compatible portable chargers, card wallets, and more.

Ideal of Sweden's variety of clear and colorful cases ensure students will always find their perfect case.

Apple is the most popular smartphone brand in the United States, with 50% of the population owning an iPhone

MagSafe Basics + Phone Mounts

PopSockets' MagSafe technology removes worries of weakening adhesives and sticky residue on devices with magnets that are 40% stronger than standard Apple-compliant MagSafe accessories.

PopWallets

The PopWallet+ is a sleek and secure way to carry up to 3 credit cards, so students don't have to carry separate wallets or purses. Each MagSafe product also comes with an adapter ring so older MagSafe-compatible cases and Android cases can still experience the convenience of MagSafe products.

Phone Mounts

The MagSafe Suction Mount and Flex Mount allow students to be hands-free, attaching their phones to any flat surface or railing. The Flex Mount can be used as a tripod as well, and its flexible arms make it perfect for easy storage.

Personal Voice allows Apple users at risk of loss of speech to create a voice that sounds like them by following a series of text prompts to capture audio

Go Unplugged

Travel is stressful enough without worrying about tangled wires and missing earbuds. With the AirFly Pro and AirFly SE, users can connect to headphone jacks wirelessly on flights, in the gym, and anywhere else that requires a wired connection. With the AirFly Pro, two people can connect to one headphone jack at once, making it perfect for students flying together.

 Paperlike®

Enable Peak Digital Productivity

With the Screen Protector & Folio bundle, which includes a 2-pack of screen protectors, a Folio Case, and a Precision Pencil Grip, users will receive the ultimate Paperlike experience.

The **Paperlike Screen Protector** is made to increase friction while writing, improving stroke accuracy and precision, minimizing glare, and making iPad screens feel like real paper.

The **Folio Case** comes in a sleek grey and offers two angles of incline. It attaches to devices magnetically and supports all generations of the Apple Pencil.

The **Precision Pencil Grip** is designed to reduce grip fatigue by improving comfort. It supports all generations of the Apple Pencils and is compatible with magnetic charging.

A black Satechi Dual Sided 3-in-1 USB-C Charger is shown. It is a foldable stand that holds an iPhone upright, an Apple Watch on its side, and an AirPods case on its base. The iPhone screen displays the date 'Tuesday, September 26' and the time '10:53'.

New Apple devices will use a USB-C port instead of a Lightning port to charge

The Future of Charging

Charge Anywhere

Charge Apple iPhone, Watches and compatible AirPods with just one USB-C charger with the Satechi Dual Sided 3-in-1 USB-C Charger. For on-the-go charging, the Satechi Magnetic Wireless Charger allows users to power up to 3 devices wirelessly while magnetically holding the item in place.

The Evolution of Qi2

Qi2 brings increased charging speed, wider range, and improved efficiency. With the 2-in-1 and 3-in-1 foldable charging stands, users can charge all their devices in a shockingly compact way. Simultaneously charge iPhones, AirPods, and Apple Watches with this portable, travel-friendly powerhouse.
