# COLLABORATION FOR A REMOTE WORLD

Students can learn in real time with Rocketbook

## SAVE THEIR NOTES. SAVE THE PLANET.

Don't let remote learning interrupt your students' learning flow. The Rocketbook notebook provides a classic pen and paper experience, yet is built for the digital age. Although it feels like a traditional notebook, it is endlessly reusable and connected to all of your students' favorite cloud services.

When students write using any pen from the Pilot Frixion line, their writing sticks to pages like regular paper. But add a drop of water and the notebook erases like magic.

# ROBOTIS

ROBOTS FOR CREATIVE LEARNERS

ROBOTIS is a global robot solutions provider and one of the leading manufacturers of robotic hardware. ROBOTIS is the exclusive producer of the DYNAMIXEL brand of all-in-one smart servos. They specialize in the manufacture of robotic hardware and full robot platforms for use in all fields of study and industry, as well as educational robotics kits for all ages and skill levels.

ROBOTIS is able to provide customized solutions to fit the needs of almost any application. ROBOTIS hardware can be found powering state-of-the-art technology. With a range of sizes, power levels, and features offered by DYNAMIXEL smart actuators, DYNAMIXELs are used in all professional and industrial fields.

They strive to develop products that can be used to advance all humankind and transcend robotics from the role of "intelligent appliances" into more personal, universal roles. Through the advancement of robotics, they hope to apply their creativity and expertise to create products that will change the world.

## Robotis Mini

A 3D printable, programmable, and customizable miniature humanoid robot featuring 16 DYNAMIXEL XL-320 Servos (16DOF), the ROBOTIS MINI can be programmed using the downloadable R+Task and R+Motion Software and also controlled via smart device with the ROBOTIS MINI App. The MINI uses ROBOTIS Dynamixel XL-320 for various motor and motion functions and comes with the ROBOTIS DARWIN-MINI exclusive smart App (includes Touch, Gestures, Voice Recognition, and Text commands).

**DSC# 142580 | Vendor# 9010046200 | SRP \$499 | Cost \$409.02**

## Dream II Level 1

An entry level robotics kit for learning and teaching the basics of robotics, Level 1 is also an educational robot kit designed for elementary school children ages 7 and up. Students can learn about robotics movements and their scientific principles such as the center of gravity, force, and more.

# iRobot®

## A Little Coding Robot With A Lot Of Possibilities.

iRobot is bringing their innovative robots to education with the Root coding robot. Root is the only coding companion that grows with students from pre-readers through high school. Designed with flexibility in mind, Root is ready for every educator and student, right out of the box.

### Say Hello to Root

#### 21st Century Skills

In addition to coding and computational thinking, Root fosters the development of 21st century skills and career readiness.

#### K-12 and More

The three levels in the Root Coding App afford accessibility and engagement at any grade level.

#### A Complete System

Root's coding app and accessories make it easy to integrate Root into any learning environment or subject matter.

#### So Many Possibilities

With Root's range of capabilities, students are provided endless opportunities to learn through creativity and hands-on problem-solving from anywhere.

### iRobot Root Intro Pack

The Root Intro Pack includes everything educators need to get started with Root, including 2 Root Robots, a downloadable Level 1 Curriculum Guide and 1-year subscription to Root Academy. Compatible only with iPad and iPhone running iOS 10 or later. The Level 1 Curriculum Guide contains 30 lessons and 22 projects that are printable and designed to be used as cards or handouts.

Available in education packs of 6, 12, and 30.

## 2020 Winter Recap

Adesso creates highly innovative products for gaming and regular computing, document cameras, graphic tablets, and presentation tools.

BrainCo develops cognitive training technology products and apply their expertise in machine learning, design, and neuroscience to create cognitive-based applications.

Kodak offers a wide variety of quality products to improve the digital classroom at an affordable price. From tablets to document cameras, Kodak has the solution your customers need.

Matatalab lets kids learn to code just by playing. Kids will program a robot and create music and art. Kids will also be able to understand fundamental concepts of real programming.

This livestreaming camera allows students an experience to "travel around the world" from anywhere.

This plastic case with internally molded silicon protects AirPods®. Students can use the case as a kickstand for hands-free viewing while having their AirPods® at their fingertips.

Wenzel's Farm is a family farm that prides themselves on making farm fresh meat sticks. Their quality cuts of protein packed meat are a wonderful snack for any occasion.

## 2019 Fall Recap

High-quality, premium headphones at an affordable price. These headphones let students hear music the way it was meant to be heard, as the artist intended it to be heard.

High-quality 3D printer filaments educators can depend and rely on. With two product lines and over 80 selections of filaments, educators are sure to find the filament they need in their classroom.

Premium gaming equipment to help students be the master of their games.

Educational Collaborators provide customized professional development for educators. The collaborators are highly sought for their expertise and experience and lead some of the strongest technology programs in the country.

Insta360 cameras are used to create environments that give hands-on experiences, creating seamless simulations, and transporting students to places and moments they've never imagined.

Provides a complete solution for schools to implement and renew their software licenses with all teacher resources available in one online portal.

Ready-to-use education kits that offer a new way to learn coding, robotics, and STEAM skills through open-end play. Curriculum meets ISTE, Common Core, CSTA, and NGSS standards.

Allows teachers to launch a K-12 STEAM/STEM educational drone program by giving them access to curriculum, drones, and support.

Focuses on making education fun with hands-on learning kits that are aligned with Common Core State Standards for Math, English, and NGSS.

High-quality, durable device sleeves for the on-the-go lifestyle. Sleeves fit devices perfectly and have the option for compartments to store device accessories.

## 2019 Summer Recap

AH-HA Products designs webcam and microphone covers to keep your students safe from hackers.

Denik provides stylish notebooks to fit your students' style. Each Denik notebook purchased supports an artist and helps build a school.

DJI is the global leader in easy-to-fly drones and aerial photography systems, combining advanced technology with education to make STEAM more relevant and exciting.

GoBox makes it easy for IT departments to quickly enroll and configure Chromebooks for their district by automating any Chromebook process.

HamiltonBuhl is a leader in the design and manufacture of electronics and presentation equipment for education and industry. Their offerings include STEAM and robotics kits, headphones and audio equipment, and sanitation products.

Kamshield is an elegantly designed cover that fits securely over the camera lens of a laptop, Chromebook, iPad, or tablet to keep webcams secure when not in use.

LAUT designs accessories for your students' Apple devices without compromising their style.

LoveHandle is a phone and tablet grip that allows students to securely and comfortably hold their phone with just one finger.

Mayku inspires future creators with their FormBox to create molds that turns the classroom into a creative powerhouse, giving students a hands-on STEM learning experience.

MobileMind is a professional learning hub offering a simple, personalized, and convenient learning experience for schools.

MyAudioPet is a small, portable animal speaker with big sound. Students can find their favorite animal and the Splash! is a fully waterproof speaker.

Omnicharge provides all-in-one solutions to power laptops, tablets, mobile phones, drones, cameras, and wearable devices.

Refurbished Apple Devices by The Douglas Stewart Company provides refurbished Apple devices at a fraction of the cost, giving every college student access to Apple devices.

Three by Three offers well designed, high quality white boards, desk and wall organizers, magnets, and more for apartments, homes, and dorms.

## 2019 Spring Recap

Spice up any project or presentation. ArtSkills specializes in poster board accessories, decorative items, and innovations. They source everything your students need to make a poster or presentation.

Organize any space. These products are carefully designed with the specific needs of educators in mind.

Help your students protect their calculators with these durable cases from Guerrilla Accessories. These zippered cases will ensure their calculators are safe from falls and any other accidents that may happen.

Students can connect their USB-C computers and devices to the most popular connections, all in a compact form factor.

These reusable coffee straws are 100% silicone and safe to use with hot drinks to protect teeth from enamel stains.

KOOV is a comprehensive solution for STEAM education with everything needed to start building robots and make them move with code.

Create the ultimate learning experience for coding with wooden toys.
