

Meet your new favorite audio workhorse

The award-winning AE-36 features durability, safety, and comfort with excellent audio delivery.

A top pick for younger ages across many learning settings, the AE-36 is designed to improve focus and communication

With high quality sound delivery and an omnidirectional, adjustable boom microphone, even the softest-spoken student will be able to be heard with clarity. Compatible with most devices with a 3.5 mm connection, the headset adjusts to many sizes and has comfortable pads for lasting comfort. It's no wonder this headset has proven to be a favorite of educators and students alike.

- Reliable and consistent results in every environment.
- Ideal for testing and assessments.
- Available in three, kid-friendly colorways.

BOOM MICROPHONE

Capture even soft-spoken words with the high quality boom microphone.

EXTRA COMFORT

Padded headband and earpads provides hours of comfort.
