Introducing UniFit
The One-Size-Fits-All-Chromebooks Typing Cover

SpeedSkin®

SpeedSkin's UniFit orange, opaque, 4-row covers peek-proof the keyboard to accelerate typing mastery within your curriculum time frame!

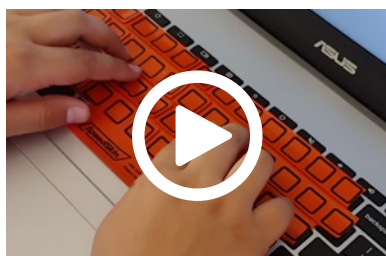

The yellow lines show:

1. Horizonal grooves
2. Two sets of form fitted keys which secure UniFit's keyboard placement

All other imprinted keys are flat which create a one-size-fits-all UniFit cover.

These edges have no drop down sides. This allows for the 1/16" to 1/8" horizontal variance between Chromebooks and permits UniFit's universal fit.

Watch how the UniFit Cover stays in place.

Speedskin Keyboard Covers are durable and made for the classroom.

SpeedSkin's UniFit Covers Make the Keyboard a Portal to Life's Opportunities
