## Why Promote itopia CloudApps?

-  Gain your clients instant access to virtual apps, with **zero cloud infrastructure or image management** - empower teachers to control the delivery of virtual apps in the classroom.
-  Help drive student engagement with a **powerful app experience, even for graphics- intensive apps** that require video editing and 3D rendering at high resolution.
-  **Enhance your customer's Chromebook value.** Extend the use case of your customer's chromebooks by giving them access to high powered apps through the browser.
-  **All apps are streamed securely through a browser,** so students can access, work with, and save files to Google Drive using the applications they normally use - anytime, anywhere, from any device.

## Key Benefits for Your Customers:

-  No need to spend IT funds on servers, storage, networking, power, cooling, or refreshing hardware
-  Our app streaming is available for a low-cost, flat-rate subscription per student. No unpredictable costs.
-  Access **150+ apps** in the browser or create custom images, allowing classrooms to be innovative and adaptable to diverse educational needs

## Book your demos today!
