

Support digital learning with K-12's most complete web filter and device management solution.

Trusted by 14,000+ schools & districts

Transform learning with GoGuardian Admin's award-winning filtering and device management solution. No matter how complicated your environment, GoGuardian Admin helps manage your devices and policies from a single unified interface.

Powerful Filtering Capabilities

Our advanced technology scans docs, mail, social, search, and web content.

Multi-Platform Support

Any device. Any browser. Any operating system.

Student Safety Included

Identify online behavior that indicates a risk of the most serious phase of suicide intent with Beacon Starter.

Granular Reporting

Easily access usage and trends at the student and Org Unit levels.

Parent App

Give parents direct access to student online activity reports and filtering controls at home.

BYOD & Guest Network Filtering

GoGuardian's DNS solution is purpose-built for education settings and is now included with GoGuardian Admin.

On and Off-Campus Filter

Set different rules based on time and device location.

Device Management

Assign, track repairs, and locate missing school-issued devices.

Flexible Grouping

Create personalized learning environments with flexible filtering at the individual student or group levels.

Integrates with ClassLink Clever
