

SAFETY & SECURITY COLLECTION

Scale security, not complexity.

GoGuardian Safety and Security unifies filtering, student safety, device, and classroom management tools into a single solution. Join over 14,000+ schools and districts powering digital learning with GoGuardian.

Why GoGuardian Safety and Security?

The GoGuardian Safety and Security collection helps IT leaders create positive learning environments through an intuitive, centrally-managed environment.

-  Configure and manage everything from a **single, unified interface**.
-  **Identify actionable insights** across schools, classrooms, and devices.
-  Designed with a **privacy-first approach** to student safety.
-  **Simplify procurement** with one contract, one invoice, one vendor.

GoGuardian Admin™

Support digital learning with K-12's most complete web filter and device management solution.

- Filter policies across devices, guest networks, and on-and-off-campus settings.
- Assign, track, and recover Chromebooks.
- Allow parent access to browsing reports and at-home filtering.

GoGuardian Teacher™

Create smart and effective digital learning environments that can be customized to meet the needs of the day — or each student.

- Create differentiated learning environments by class, group, or student.
- View student work in real time to identify individual needs.
- Interact with student screens to guide them towards lesson content and enhance focus.

GoGuardian Beacon®

Notify designated staff about online activity that indicates a risk of suicide, self-harm, or possible harm to others.¹

- Connect your student safety staff with those in need.
- Customize escalation paths and receive alerts with context.
- Optional: Choose 24/7 escalation for Active Planning alerts.

Visit www.goguardian.com to learn more and start a **free** trial.

1. GoGuardian Beacon serves as one data point of a school's overall suicide prevention program.
