Create engaging lessons for your students with Wacom creative display tablets. Whether in the classroom or online, you can use pen displays to present lessons, illustrate learnings, take notes, and answer questions. When it comes to students, the pen makes the switch to digital working easy and intuitive. Wacom works with popular educational software to let you do more with the tools you love, including: Jamboard, Pear Deck, OpenBoard, and Whiteboard.

**Beyond art:
enabling new ways
to teach and learn**

Annotating & Grading

HOW TO INCREASE STUDENT ENGAGEMENT

Now is an exciting time for K-12 education. Many schools continue to embrace the shift to student-centered learning experiences and current federal funding is supporting this evolution. The possibilities for teachers to engage K-12 students in the classroom are boundless, but here are 3 easy ways teachers can increase student engagement this school year.

Establish community rules

Like social media community guidelines, establishing your classroom or community guidelines lets you share your expectations for proper classroom behavior to create a safe space for sharing and learning.

Create personalized learning pathways

Are you giving students voice and choice over how they learn? Each student learns at a different pace and personalized learning experiences can adapt with students to maintain their attention and focus.

Build lessons around real-life connections

Give students a lead-in to a chapter, task, or project with a relatable story to create a real-life connection. Many edtech companies are building cross-curricular activities that offer a bridge between concepts and real-world applications to take the work out of developing hands-on learning.

Evolve Your Esports Experience

Students can do big things when given the ideal tools to enhance their space. Spectrum lets you optimize student success with innovative esports furniture designs for next-level gameplay.

Esports furniture benefits:

- ▶ Customize your esports space with advanced designs
- ▶ Design collaborative or independent work spaces
- ▶ Enhance and improve the gameplay experience

Console Gaming Hub™

Esports Evolution Desk

Esports Genova Chair

Esports Locker

EXPERTLY DESIGNED TO WITHSTAND DAILY CLASSROOM USE

With the integral technological guidance from Emmy award-winning audio engineer Mark Howlett, TWT Audio has developed high quality, value-driven headphones and headsets that not only provide superior user experience, but also withstand the rigors of daily use by students.

TW-50 (3.5MM TRS Jack)

Lite Headphone

TWT Audio' newly improved 2nd Generation TW50 LITE Headphone is designed specifically to address the demands of students in educational settings. The streamlined headphone design is lighter in weight than its predecessor, features a flexible memory-hold headband to comfortably fit listeners of all ages, and is constructed with ABS plastic to ensure maximum durability. With a chew-resistant braided fabric cable that prevents damage from the toughest of chewers, the TW50 LITE Headphone is a reliable and competitively priced option for everyday classroom use.

TW-BC1
(3.5MM TRRS Jack) | 10 pack

Flex Adapter

Prevent pin breakage in student audio devices.
