# TABLE OF CONTENTS

# WHAT IS STEAM LEARNING?

STEAM learning is an educational framework that aims to spark an interest and a lifelong love of the arts and sciences, specifically focusing on hands-on study in the fields of Science, Technology, Engineering, the Arts, and Math. Teaching these relevant, in-demand skills prepares students to become innovators in an ever-evolving world.

STEAM also empowers teachers to employ project-based learning that addresses each of the five disciplines and fosters an inclusive learning environment in which all students are able to engage and contribute.

The STEAM framework teaches students how to think critically, problem solve, and use creativity. It develops confidence and improves students' communication skills. STEAM learning prepares students to work in fields that are poised for growth, and the skills students gain from a STEAM education can be translated into almost any career.

# STEAM TARGETS

## INFLUENCERS

**Department of  
STEAM Coordinators**

**Department of  
STEAM Specialists**

**Educators**

## DECISION MAKERS

**Superintendents**

**Principals**

**School Boards**

**Curriculum &  
Instruction Directors /  
Academic Officers**

**Technology Officers  
& Directors / CTOs / CIOs**

**01 Critical Thinking**

**02 Cognitive Thinking**

**03 Communication Skills**

**04 Problem Solving Skills**

**05 Student Engagement**

**06 Student Collaboration**

# **BENEFITS OF STEAM EDUCATION**

## 3D PRINTING + FABRICATION

A revolutionary technology that can be used to create physical objects from digital designs, allowing students to explore their creativity and produce tangible results. This technology offers unique advantages for teachers, such as increased engagement in the classroom and improved student learning outcomes.

## AGES: 14+

High School

## STEAM BENEFITS:

- Fosters Science, Technology, Engineering, Art, and Math multidisciplinary thinking.
- Exercise design fundamentals with 3D objects.
- Lesson plan designs for multiple ages by educators.

## PRICE (SRP):

**Plus**  
\$4,495.00

**Pro**  
\$5,999.00

  
glowforge®

**Glowforge 3D laser printers and engravers are an eco-friendly STEAM solution that brings computer-aided creativity to students. Perfect for bringing to life anything students can imagine with a wide variety of materials for their creations.**

**3Doodler is the world's first 3D printing pen. It is an early introduction to 3D printing, with simple and uncomplicated technology and lesson plan breakdowns to cultivate engineering and creativity.**

## **AGES: 6+**

**3Doodler Start+** Elementary & Middle

**3Doodler FLOW** High School

## **STEAM BENEFITS:**

- Establishes a foundation between imagination and engineering.
- Helps students discover their own ability to make things.
- Free lesson plans covering a variety of STEAM topics.

## **PRICE (SRP):**

**Start+ Essential Pen Set**

\$49.99

**Start+ Eco-Plastic Filament**

\$11.99

**FLOW Essentials Pen Set**

\$79.99

**FLOW Essentials Pen Set**

\$79.99

**CHEF Pen Set**

\$99.99

**CHEF Pen Refills**

\$14.99

## AGES: 14+

High School

## STEAM BENEFITS:

- Helps students discover their own ability to make things.
- Empowers student creativity, coding, and engineering.
- Professional lessons, various tutorials, and interesting projects.

## PRICE (SRP):

**F1 Ultra Laser Engraver**  
\$3,999.00

**M1 Ultra 20W Premium Craft Machine**  
\$1,899.99

**P2S 55W CO2 Laser Engraver**  
\$4,299.00

# xTOOL

xTool is the world's first desktop hybrid laser and blade cutting machine that integrates laser engraving, laser cutting, and blade cutting into one. It allows students and educators access to a super-wide range of materials.

**The FormBox, a 3D forming machine from Mayku, turns classrooms into a creative powerhouse, giving students a hands-on STEAM learning experience.**

## **AGES: 8+**

Middle & High School

## **STEAM BENEFITS:**

- Mayku Teach – teaching resources for grade school.
- Helps students explore basic design and manufacturing principles.
- Encourages student collaboration.

## **PRICE (SRP):**

**FormBox Vacuum Former**  
\$699.00

## AGES: 12+

Middle & High School

## STEAM BENEFITS:

- Create designs from scratch or pick from thousands of predesigns with no design experience required.
- Free, easy-to-learn Design Space app to discover endless possibilities.
- Works with 50+ materials, including popular materials like vinyl, iron-on, and cardstock.

## PRICE (SRP):

**Joy Xtra Smart  
Cutting Machine**  
\$199.00

**Maker 3**  
\$429.00

cricut®

**Cricut is where creativity comes to life. Explore a range of smart cutting machines and accessories designed for home crafters. Work with an easy-to-use app to help you design and personalize almost anything — custom cards, unique apparel, everyday items, and so much more.**

**Unleash students' inner designers with AOSEED, a kid-friendly 3D printer to fuel young minds with hands-on learning and fun. With the X-maker, students can design, customize, and print their own toys, fostering creativity and turning playtime into creation time.**

## **AGES: 4+**

**X-Maker JOY** Elementary School

**X-Maker** Middle School

## **STEAM BENEFITS:**

- Over 1500+ original designer models to help inspire students, ensuring fresh inspiration and endless customization.
- Plug-and-play compatibility with a kid-friendly app, creating a seamless, safe, and easy experience for teachers and students.
- Learning center with gameplay, courses, instructions, and manuals to take beginner basics to advanced techniques.

## **PRICE (SRP):**

**Joy**  
\$219.00

**X-Maker**  
\$369.00

## AGES: K+

Elementary School

## STEAM BENEFITS:

- Students are given an opportunity to let their imagination shine using 3D technology to bring ideas to life.
- Courses include curriculum & LMS Access, Equipment Kits, and Student Connection Materials.
- Hands-on learning experience to teach students 3D printing tools, software, and Tinkercad.

## PRICE (SRP):

**Equipment Bundle &  
Tech Support  
Grades K-2**  
\$1,995.00

**Equipment Bundle &  
Tech Support  
Grades 3-12**  
\$1,995.00

**NextWaveSTEM is a turn-key STEM solution that engages, excites, and inspires students through hands-on STEM experiences using emerging technologies. Equip students with 3D printing courses that span initial introductions with young students to advance engineering and design skills.**

## **ROBOTICS + AI**

*(artificial intelligence)*

Provides a multi-sensory and experiential learning experience that can also help students understand how technology can be used to solve real-world problems.

# kai's education

**Kai's Education designs educational coding robots, creating a rich and engaging way to teach and learn coding from an early age. Kai offers a hybrid learning environment with screen-free coding, virtual programming, or both for interactive play.**

## AGES: K-5+

**KaiBot Hybrid Robot** Pre-school  
**Kai's Clan Start Pack** Elementary School

## STEAM BENEFITS:

- Lesson plans structured around real-world problem-solving on different physical and AR/VR mats.
- Collaborative coding where students work together and engage.
- Effective learning for the classroom, online, or homeschooling environments.

## PRICE (SRP):

<b>KaiBot Intro Pack</b> \$190.00	<b>Kai's Clan Start Pack (4)</b> \$995.00
--------------------------------------	--

## AGES: 11+

**RoboMaster EP Core** Middle School, 11+

**Boost Combo** High School, 14+

## STEAM BENEFITS:

- AI and programming projects for students of all ages and experience levels.
- Included interactive curriculum to learn how to code while applying math and physics.
- Education and entertainment engage students and encourage collaboration.

## PRICE (SRP):

**DJI Mini 3 Pro**

\$669.00

**RoboMaster EP Core**

\$899.99

**dji**

**DJI makes drones for aerial photography and videography. They also manufacture the RoboMaster to take learning to the next level and enhance coding and programming skills.**

## Robots

**Otto is the first modular robot with simple coding. Take students through 3D printing, building, and programming to build and understand the basics of electronics, engineering, and coding.**

**AGES: 8+**

Middle School

### STEAM BENEFITS:

- Teacher-developed STEAM resources with lesson plans, activities, and programs.
- 3 programming modes that adapt with learning, going from a controller app to block-based programming to Python or C++.
- Boost functionality and expand learning with additional accessories to adapt Otto to its surroundings.

### PRICE (SRP):

**Otto Interactive Builder Kit**

\$39.90

**Otto Starter Creator Kit**

\$129.95

**Otto Emote Builder Kit**

\$74.90

**Otto Starter Builder Kit**

\$149.95

## AGES: 4+

Elementary School

## STEAM BENEFITS:

- Fast and easy way to build robots with a bunch of smaller robots, growing more challenging and complex as students grow.
- Free standards-aligned lesson plans, printable activity cards, online professional development, and more.
- Designed to help students build problem-solving and cognitive skills with hands-on and screenless learning.

## PRICE (SRP):

### Bluetooth Hat

\$43.00

### Clever Constructors Pack

\$2,899.00

### Motivated Makers Pack

\$2,029.00

### Intrepid Inventors Pack

\$5,779.00

# Modular Robotics

With Modular Robotics, combine 17 unique kinds of Cubelets in different ways to create countless robot constructions to teach important skills like engineering, collaboration, computational thinking, and more.

# makeblock

**Makeblock is a global leading STEAM education solution provider. They make robots and kits to engage students in coding while driving STEAM learning.**

## **AGES: 6+**

**Codey Rocky** Elementary School, 6+

**mBot-s** Middle School, 8+

**Ranger** Middle School, 12+

**Ultimate 2.0** High School, 15+

## **STEAM BENEFITS:**

- Empowers teachers with a continuum of solutions to make computer science and STEAM education engaging and accessible to all.
- Entry-level coding class to learn block-based and python programming.
- Interactive technology that inspires imagination in creative programming scenarios.

## **PRICE (SRP):**

**mBot-s**  
\$89.99

**Codey Rocky**  
\$129.99

**Ranger**  
\$169.99

**Ultimate 2.0**  
\$399.99

## AGES: 14+

Middle & High School

## STEAM BENEFITS:

- Uses building and playing to learn how AI and robots work, introducing students to how robotics can be.
- Increases student involvement with graphical programming that allows block programming to easily enable AI functionalities.
- Includes experiment manuals with robotic curriculum that supports project-based learning.

## PRICE (SRP):

**Magician Robot Arm**

\$1,690.00

 **DOBOT**

**Dobot is the leading manufacturer of collaborative robots that are user-friendly with great performance. Students can interact with the Magician Lite using software, hardware, and expansion interfaces to maximize their creative freedom.**

# wonder workshop

**Designed for learning and fun, Wonder Workshop uses apps and robots to encourage hands-on play and make problem-solving tangible. With Dash Robot, students have the tools they need to build coding and tactical skills.**

## **AGES: 6+**

Elementary School & Above

## **STEAM BENEFITS:**

- Coding and robotics content and curriculum for classrooms, teachers, and homeschool.
- Virtual coding becomes tangible learning experiences in real time.
- Supports self-guided exploration of programming languages, robotic capabilities, and meaningful projects.

## **PRICE (SRP):**

**Dash Robot**

\$179.99

**Dash Wonder Pack**

\$269.99

## AGES: 9+

Middle & High School

## STEAM BENEFITS:

- Complete Computer Science curriculum to teach real-world Python coding skills.
- Step-by-step guided lessons in CodeSpace to learn the fundamentals of coding.
- Perfect introduction to Python, starting with basic concepts such as sensors, displays, LEDs, and more.

## PRICE (SRP):

### CodeX with Python Kit

\$199.00

### CodeBot with Python Kit

\$199.00

### Mission Pack: Lift-Off! Peripherals Kit

\$199.00

### CodeAIR Fly with Python Kit

\$299.00

# FIRIA LABS

Firia Labs creates innovative Robotics and STEAM-based kits integrated with educational software and curricula. Firia Labs was born out of the passion and commitment to ensure that all students have access to real world computer programming learning opportunities.

# SoftBank Robotics

**SoftBank Robotics are the leading robot integrators creating value in robotics globally and robotic solutions. Nao is an autonomous, programmable humanoid robot for all ages.**

## **AGES: K-14+**

Elementary School & Above

## **STEAM BENEFITS:**

- A programmable, personal teaching assistant helps teachers bring lessons to life, offer extra support, and keep students engaged.
- Conduct interactive experiments, collect data, and help researchers test new theories and find new answers.
- Hands-on projects that encourage participation, collaboration, and creative problem-solving.

## **PRICE (SRP):**

**NAO**

\$12,990.00

## AGES: 5+

Elementary School

## STEAM BENEFITS:

- Interactive learning targeting engineering, math, programming, and general science concepts and skills.
- Software applications to make programming fun and easy to learn.
- Cultivates imagination and innovativeness without expensive tools and excessive investment.

## PRICE (SRP):

**Edison Robot Expansion  
Construction Kit**

\$41.01

**Edison Educational  
Robot Kit**

\$76.91

**Hamilton  
Buhl®**

**HamiltonBuhl Edison strives to make electronics, engineering, robotics, and programming accessible to as many people as possible. The Edison Robot also has Lego® compatibility.**

# iRobot<sup>TM</sup> Education

**Educational robots, resources, and programming to provide educators and students support for STEAM learning. iRobot promotes developmentally-appropriate growth by using music, colors, art, and kinesthetic learning.**

## **AGES: 6+**

Elementary & Middle School

## **STEAM BENEFITS:**

- Free iRobot Coding platform with 3 easy learning levels for all skill levels.
- Promotes creativity, problem-solving, persistence, and teamwork.
- Develops directional awareness, pattern recognition, sequencing, and algorithmic thinking.

## **PRICE (SRP):**

**Root Robot**  
\$249.99

**Root rt1 Classroom Pack**  
\$1,499.00

## **CODING + COMPUTER SCIENCE**

This area of study teaches students the process of writing out steps for a computer to follow to achieve a goal or perform a task. Coding makes it possible to create computer software, games, apps, and websites while teaching digital literacy, problem solving, and computational thinking.

# **iRobot**™ Education

**Increase student engagement and relate coding to the real world with iRobot. iRobot helps promote developmental growth and coding by using music, colors, art, and kinetic learning.**

## **AGES: 6+**

Elementary & Middle School

## **STEAM BENEFITS:**

- Help establish cross-curricular connections across subjects by promoting the use of visual, auditory, and kinesthetic learning.
- Free app including guided tutorials, ready-to-go coding projects, seasonal activities, and more.
- 3 learning levels for any skill level—graphical coding, hybrid coding, and full-text coding.

## **PRICE (SRP):**

**Root rt0  
Coding Robot**  
\$129.99

**Root rt1  
Coding Robot  
Classroom Pack**  
\$1,499.00

**Root rt1  
Coding Robot**  
\$249.99

**AGES: 4+**

Elementary School

## STEAM BENEFITS:

- Fast and easy way to build robots with a bunch of smaller robots, growing more challenging and complex as students grow.
- Free Cubelets apps help change how any Cubelet behaves with data logger, personality swap, blocky coding, and C coding to become more challenging.
- Free standards-aligned lesson plans, printable activity cards, online professional development, and more.

## PRICE (SRP):

### Bluetooth Hat

\$43.00

### Clever Constructors Pack

\$2,899.00

### Motivated Makers Pack

\$2,029.00

### Intrepid Inventors Pack

\$5,779.00

# Modular Robotics

Expand Modular Robotics Cubelets® with a Bluetooth Hat to teach young students progressive coding by learning data values, swapping personalities, and coding new behaviors.

# Robots

Otto is the first modular robot with simple coding and equipped educational tools to help develop students' STEAM skills in 4 simple steps.

**AGES: 8+**

Middle School

## STEAM BENEFITS:

- Teacher-developed STEAM resources with lesson plans, activities, and curriculum.
- 3 programming modes that adapt with learners from a controller app to block-based programming to Python or C++.
- Helps students to learn problem-solving skills, design skills, engineering skills, and programming skills.

## PRICE (SRP):

**Otto Starter Creator Kit**

\$129.95

**Otto Starter Builder Kit**

\$149.95

## AGES: 8+

Middle & High School

## STEAM BENEFITS:

- Progressive coding from Blockly to Raspberry Pi.
- Standards-aligned resources with lesson plans, assessments, hand-outs, and more.
- Engaging self-guided missions and tutorials with multiple ways to extend the Piper experience.

## PRICE (SRP):

\$399.00

# PIPER

**Piper blends physical building with virtual play to inspire the inventors of tomorrow. Students learn coding, engineering, and computational thinking while developing skills to be confident and solve problems with technology.**

A group of four children are sitting on a green carpeted floor, interacting with several small, white, spherical robots with large eyes. The scene is brightly lit, and the children appear to be engaged and happy. The text 'wonder workshop' is overlaid on the image in a white, lowercase, sans-serif font.

# wonder workshop

**Wonder Workshop uses apps and robots to help children learn coding through hands-on play and guided challenges. Using Dash Robot, children can learn coding concepts like sequencing, events, loops, algorithms, operations, and variables in real time.**

**AGES: 5 - 14**

Elementary & Middle School

## **STEAM BENEFITS:**

- Free apps available with challenges and an open-ended learning platform that makes tech knowledge engaging and accessible.
- Blocky coding introduces fundamentals of computer science and advanced coding concepts through playful missions and puzzles.
- Supports self-guided exploration of programming languages, robotic capabilities, and meaningful projects.

## **PRICE (SRP):**

**Dash Robot**

\$179.99

## AGES: 3+

Pre-school

## STEAM BENEFITS:

- Designed to help children play collaboratively, irrespective of reading ability or language.
- 2 years of cross-curricular lessons plans available designed to align with standards.
- Let's you teach coding without screens, increasing engagement and enhancing learning.

## PRICE (SRP):

**Cubetto Direction  
Blocks**  
\$29.90

**Cubetto Wooden Robot**  
\$229.00

**Cubetto Logic Blocks**  
\$29.90

# PRIMO

Teach young children the basics of computer programming through adventure and hands-on play. Cubetto is a screenless, friendly, and ready-to-play robot that helps children take their first steps into the world of coding.

# kai's education

**The KaiBot is the worlds first hybrid coding robot for kids, designed to create a rich and engaging learning environment. KaiBot combines unplugged coding with coding cards for young learners to acquire coding skills.**

## AGES: 3+

Pre-school & Above

## STEAM BENEFITS:

- Allows students to learn basics in progression through coding cards, included lessons, and activities.
- Hybrid mode by using coding cards, Blockly, or Python to solve challenges and watch both physical and virtual KaiBot act out code instructions.
- Create, build, and design new challenges and mazes to keep students engaged.

## PRICE (SRP):

### **KaiBot Intro Pack**

\$155.50

### **KaiBot Class 10 Pack**
