

Go-Box Chrome

Your Chromebook deployment automation solution

**Compatible with all
Chromebook Models**

Hisense TOSHIBA

Back-to-school season means Chromebook enrollment time! With Go-Box, you can create your own highly efficient in-house white glove enrollment service. Save thousands in fees or weeks of employing a hack solution, by automating your Chromebook enrollments with Go-Box.

This powerful device pays for itself on your first deployment — and then saves you money for years to come. Buy it once and use it as many times as you need to simplify Chromebook cleanup and enrollment.

Automate or wipe
16 Chromebooks at
a time

No coding
knowledge needed

User interface for
easy set up

Fully supported in
case you get stuck

How Go-Box works

Connect to the Go-Box user interface and quickly configure your enrollment script using one of the pre-made Go-Box templates. Then follow these 3 easy steps for automating Chromebooks in less than 2 minutes:

1. Power on the Chromebook
2. Connect the Go-Box USB cable
3. Go-Box executes your script and prepares the Chromebook for students to use

Pro Tip: Create and save multiple script versions to handle variances at different school locations or to enroll batches of Chromebooks into different OUs.

How many units you'll need

Based on the feedback of hundreds of Go-Box customers, it's recommended that you get

1 Go-Box for every 2,000 Chromebooks OR **1 Go-Box for every IT tech**

Where IT resources are thin, 1 Go-Box per 500 Chromebooks may be needed. And if your school district covers a large area, assigning each tech their own Go-Box will provide optimal efficiency.

ARP ESSER Funds are available to get Go-Box devices to support your Chromebook program.

Why K-12 IT professionals love Go-Box

"Once we got the Go-Box script tweaked, it was faster than one person could do by themselves! By the end of the day, we were provisioning about 200 an hour and that was only limited by man power, not the Go-Box!"

Chris B., Fairfield Public Schools - Fairfield, CT

"I love the Go-Box. I did over 1,000 Chromebooks in about 3 days by myself. It was easy as can be to plug them in, let it work, and then on to the next set in roughly a minute and a half. The Go-Box was a life saver for me!"

Jim G., Shelley Joint School District 60, ID
