Extend the power of Chromebooks to every corner of your campus

Enable educators, students and staff to run full-featured Windows education applications and Microsoft Office on flexible, secure Chromebook Enterprise devices.

Maximize the value of your Google Workspace for Education Plus license with a cross-platform solution from Parallels that strengthens learning, simplifies IT and saves costs.

Elevate education outcomes from the back office to the remote classroom.

Simplify IT Management

Eliminate the headaches of a hybrid hardware fleet. Bring all your devices onto a single platform and manage them easily through the Google Admin console.

Empower Student Achievement

Enable next-level learning experiences by giving teachers and students access to skill-building, creativity-igniting tools they can engage with together—wherever they are.

Ensure Safety & Security

Protect students, spaces and systems from threats while meeting the varying software needs of a diverse and distributed user population.

Dissolve technology limitations. Unleash human potential.

Create a connected, dynamic, equitable school environment that sets everyone up for success.

Teach, learn and share from anywhere.

- Deliver always-on access to essential Windows applications including Microsoft Office, design, CAD, and web development programs, and more.

- Effortlessly switch between Chrome OS and Windows —no need to reboot.

- No internet? No problem! Files and apps are fully accessible offline, so poor connectivity won't limit opportunity.

Eliminate multi-platform friction points.

- Full Chrome OS integration means a familiar and friendly user experience.

- Content can be easily moved between Chrome OS and Windows via a shared clipboard.

- Seamless mouse, camera, microphone, audio & docking plus USB smart card redirection and printer support reduce disruptions, leaving more time for class engagement.

Improve IT efficiency without compromising quality

- Centrally manage school-issued, user-owned, and shared devices all from the Google Admin console.

- Enable Parallels Desktop for Chrome OS for selected OUs or groups—it's that simple.

- Enjoy peace of mind with advanced Chrome OS security controls plus premium Parallels support, 24/7.

System Requirements

Chrome OS version	Processor	Memory	Storage	Additional Requirements
Chrome OS 85 or later	Intel Core i3*, i5 or i7 AMD Ryzen 3**, 5 or 7 *11th Gen i3 and newer **Ryzen 3 5000 series and newer	8GB of RAM	128 GB or more	• Google Admin console • Chrome Education Upgrade • Microsoft Windows • Corporate storage server
