# Campus Bundle

Inspire learning, promote creative expression, and build community at your school with Cricut. A special package for your entire campus featuring Cricut's most versatile cutting machines, heat presses, and project-making materials.

The Cricut Venture is the most powerful “design and make” cutting machine that cuts and writes at commercial speed. Teach STEM projects and skills like design, software, cutting and fabrication in any media centers and makerspaces with the Cricut Venture.

The Cricut Maker 3 writes, draws, scores, and cuts over 300 different project-making materials. Bundled with additional tools and accessories, this workhorse machine is the ideal solution for makerspaces and other community-accessible areas such as libraries, faculty lounges, and administrative offices.

The Cricut Joy Xtra is the perfect companion for K12 classroom educators. This Cricut Campus Bundle includes two fits-in-any-space Cricut Joy Xtra machines along with additional printable materials that let teachers create inspirational learning spaces, promote a sense of student belonging, and produce memorable & effective learning aides. Print then cut full-color designs like personalized stickers and iron-on projects.

Everyone loves coffee mugs! With the Cricut Mug Press, your school community can make vibrant professional-quality, dishwasher safe mugs. With no manual temperature or pressure settings, it's safe and fun to add your school's name, logo, mascot, or other personal expressions to create mugs that everyone will cherish.

The Cricut Autopress is the perfect pro-grade heat press for school use. With its zero-effort operation and its school-friendly safety features, the Cricut Autopress™ is the ideal tool for personalizing fabrics such as t-shirts, hoodies, tote-bags, and more! The Cricut Campus bundle includes the Cricut Autopress plus additional Cricut Iron-on Materials.
