Big sound in a
small package

 **damson**

BIG SOUND in a small package

Damson products are designed and engineered to provide ease of use and great sound quality in small speaker packages, the fit and feel of all of products is second to none, and dealers and customers alike comment that these speakers have clearly been designed with high quality components. Damson believes that great products should not be packaged in plastic and each model comes in top-quality packaging with the accessories a user needs to begin enjoying their speakers.

Damson speakers use

Damson Twist Bluetooth Speaker

Twist is a sleek and innovative portable Bluetooth® speaker unlike you have ever heard before. Twist uses Damson's Incisor Diffusion Technology™ to amplify sound by using almost any surface you place it on. Twist can be mounted on glass, has an 8-hour battery life and comes in 4 colors.
