Symbols for Inclusion and Accessibility

Widgit has pioneered the use of symbols in learning and communication for over 30 years—their software is used around the world to create symbol-supported materials in print, onscreen, and online. Symbol-supported communication is a huge asset to assistive technology programs and users with communications-related developmental disabilities.

Avid® is The Industry Standard

Help students learn real-world skills and maximize their career opportunities

Knowing how to use Avid solutions is a pre-requisite for working in the media and entertainment industry. Help schools teach the right skills to ensure students are prepared for industry requirements.

Media Composer® 7

Available for Mac or PC, Media Composer's open platform enables schools to work with the gear they already have or want and integrate into any workflow. Whether they want to edit movies, TV shows, commercials, or other video, this industry-standard nonlinear editor provides 64-bit to-use video editing tools, and streamlined HD, enabling them to work faster than ever.

Pro Tools® 11

Whether creating music or sound for picture, the right tools can help students achieve the highest quality mixes faster. Pro Tools 10 is the next generation of the best sounding, most widely used audio production software in the industry, enabling schools to record, compose, edit, and mix with great speed and ease.

Sibelius® 7

Sophisticated enough to meet the demands of the world's top professional composers, arrangers, and publishers, yet simple enough for elementary or primary students, Sibelius is the superior choice for learning and teaching music notation, composition, and music theory.
